Accessories/ Installation Procedure 67

Connecting Wires to Terminals 68

Installation/Removing the Unit 69

Troubleshooting Guide 71

Specifications 74
WARNING
To prevent injury or fire, take the following precautions:
To prevent a short circuit, never put or leave any metallic objects (such as coins or metal tools) inside the unit.

Do not use this unit before canceling Demonstration mode!
This unit is initially set on the Demonstration mode. When using this unit for the first time, cancel the Demonstration mode. Refer to <Before Using> (page 7).

How to reset your unit
If this unit or the connected unit (auto disc changer, etc.) fails to operate properly, press the Reset button. The unit returns to factory settings when the Reset button is pressed.

Cleaning the Unit
If the faceplate of this unit is stained, wipe it with a dry soft cloth such as a silicon cloth. If the faceplate is stained badly, wipe the stain off with a cloth moistened with neutral cleaner, then wipe it again with a clean soft dry cloth.

⚠️
- Applying spray cleaner directly to the unit may affect its mechanical parts. Wiping the faceplate with a hard cloth or using a volatile liquid such as thinner or alcohol may scratch the surface or erases characters.

Unit and Faceplate Terminals
- To prevent deterioration, do not touch the terminals of the unit and faceplate with your fingers.
- If the terminals on the unit or faceplate get dirty, wipe them with a clean soft dry cloth.

Lens Fogging
When you turn on the car heater in cold weather, dew or condensation may form on the lens in the CD player of the unit. Called lens fogging, this condensation on the lens may not allow CDs to play. In such a situation, remove the disc and wait for the condensation to evaporate. If the unit still does not operate normally after a while, consult your Kenwood dealer.

Notes
- If you experience problems during installation, consult your Kenwood dealer.
- When you purchase optional accessories, check with your Kenwood dealer to make sure that they work with your model and in your area.
- Characters that conform to ISO 8859-1 can be displayed.
- The Radio Data System feature won’t work where the service is not supported by any broadcasting station.
- In this document, the description indicator will light means a status is displayed. Refer to <Basic Operation> (page 30) for the details of the status display.
- The illustrations of the display and the panel appearing in this manual are examples used to explain more clearly how the controls are used. Therefore, what appears on the display in the illustrations may differ from what appears on the display on the actual equipment, and some of the illustrations on the display may be inapplicable.
Handling CDs
• Do not touch the recording surface of the CD.
• Do not stick tape etc. on the CD, or use a CD with tape stuck on it.
• Do not use disc type accessories.
• Clean from the center of the disc and move outward.
• When removing CDs from this unit, pull them out horizontally.
• If the CD center hole or outside rim has burrs, use the CD only after removing the burrs with a ballpoint pen etc.

CDs that cannot be used
• CDs that are not round cannot be used.

• CDs with coloring on the recording surface or CDs that are dirty cannot be used.
• This unit can only play the CDs with . This unit may not correctly play discs which do not have the mark.
• You cannot play a CD-R or CD-RW that has not been finalized. (For the finalization process refer to your CD-R/CD-RW writing software, and your CD-R/CD-RW recorder instruction manual.)
• 3 inch CD cannot be used. Attempt to insert using an adapter can cause malfunction.
1. **Release button**  
To drop the faceplate down to open and CD can be inserted or ejected (press the button).

2. **[MENU] button**  
To select a song or set functions. See <Menu List Operation> (page 7).

3. **[DISP] button**  
To change display item (press the button).

4. **[VOL] knob**  
To adjust volume (turn the knob).  
To select menu list item (turn and press the knob). See <Menu List Operation> (page 7) for details.  
Enter Play mode Menu (press the button at least 1 second).

5. **[SEARCH MODE] button**  
To enter Search mode (iPod), move between folders (Audio file), etc. For more details, see operations of each source described in page 8 or later.

6. **Microphone**  
The microphone for the hands free phone is supplied.  
When your voice cannot be recognized due to the low microphone volume or noises in the vehicle, adjust the microphone settings by <Bluetooth Setting> (page 48).

7. **Auxiliary Input Terminal**  
Portable audio device can be connected with the mini-plug (3.5 mm (1/8") ø).  
- Use the mini-plug cable which is stereo type and does not have any resistance.

8. **[SRC] button**  
To turn on this unit and select the Source (press the button).  
To turn off this unit (press the button at least 1 second).

9. **[◄◄] / [►►] buttons**  
To select station, song and setting items. (press the button).

10. **[◄] button**  
To start or interrupt playback for CD, audio file, and iPod (press the button).

11. **[SCRL] button**  
The displayed text scrolls (press the button).  
To enter “Clock & Date” settings when Clock Display mode is selected in the Display Setting mode (press the button).

12. **Display window**

13. **[📞] button**  
To enter Bluetooth mode (press the button).  
To enter Bluetooth easy pairing mode (press the button at least 1 second). See <Easy pairing function> (page 48).

14. **USB Terminal**  
A USB device or an iPod can be connected.
Before Using

Exit of the Demonstration Mode
Turn off the demonstration mode when you use it for the first time after installation.

1. Press the [VOL] knob to quit the demonstration mode when the messages “To cancel Demo press the volume knob” are displayed (approx. 15 seconds).
2. Turn the [VOL] knob to select “YES” and press the [VOL] knob.

Menu List Operation

The basic operating procedure for using this function is described below. The individual function items are covered in the operating procedures.

1. Select the source
Pressing the [SRC] button repeatedly switches source.
Function items vary from source to source. For a list of the function items. Refer to <Menu List> (page 62).

2. Enter Menu List mode
Press the [MENU] button.

3. Select the setting item
Turn the [VOL] knob and press it when the desired item is displayed.
Repeat the operation until your desired setup item is selected.
Press the [MENU] button to return to the previous item.

Operation example:

1. Select “Music” ➜ “PlayLists” ➜ “My Best 25”.

4. Make a setting
- When the “PUSH” icon is displayed (at the right edge of the display)
  Turn the [VOL] knob to select a setting value, and then press the [VOL] knob.
- When the “PUSH” icon is not displayed
  Press the [◄] or [►] button to select a setting value.

5. Exit Menu List mode
Press the [MENU] button for at least 1 second to return to the first hierarchy. Press the [MENU] button in the first hierarchy to exit the Menu List mode.

Common Operation

Power and source select
Turns the power ON by pressing the [SRC] button.
When the power is ON, select a source.
- SRC Select mode 1: Pressing the [SRC] button each time switches between sources.
  HD Radio (“HD RADIO”) ➜ USB (“USB”) or iPod (“iPod”) ➜ Pandora (“Pandora”) ➜ CD (“CD”) ➜ Auxiliary input (“AUX”) ➜ Standby (“STANDBY”) ➜ HD Radio...
- SRC Select mode 2: Press the [SRC] button and then turn the [VOL] knob. To determine the selected source, press the [VOL] knob. Keeping pressing the [SRC] button for at least 1 second turns the power OFF.

Volume
Turning the [VOL] knob adjusts the sound volume.

Note
- You cannot set the item with the ‘×’ icon displayed.
iPod/iPhone Operation

Basic Operation

Playing iPod

• Connect an iPod
  When connected, the source is switched automatically and a song starts playing.

• Select iPod source
  Press the [SRC] button.
  Select the “iPod” display.

Song Select

Press the [4] or [¢] button.

Fast Forwards or Fast Backwards

Hold down the [4] or [¢] button.

Pause and Play

Press the [■■] button to pause or resume playback.

Remove iPod

Select a source other than iPod and Pandora, and the iPod can be removed safely.

KCA-iP102 (optional accessory) is required to connect an iPod.

Do not use the KCA-iP102 with an extension cord.
Play Mode

You can select a Play Mode, such as Random play and Repeat play.

1 Select iPod source

2 Enter Play Mode Menu

Press the [VOL] knob for at least 1 second.

You can also select from “Play Mode” in Menu List mode.

3 Select the Play Mode

Turn the [VOL] knob.

<table>

</tr>
</tbody>
</table>

4 Make a setting

Press the [◄►] or [◄►] button.

5 Exit Play Mode Menu

Press the [MENU] button.

Remarks

- All Random
  - The time required to turn on the all random function may become longer depending on the number of songs in iPod.
  - Turning on the all random function changes the iPod browse item to “Songs”. This browse item will not be changed even if the all random function is turned off.
  - If the browse item is changed to search for music while the all random function is on, the all random function is turned off and the songs in the browse item are played at random.

- iPod by Hand (iPod Control by Hand Mode)
  - Allows you to operate iPod with the control on the iPod.

  - In the iPod Control by Hand Mode, iPod cannot be operated using this unit.
  - This mode is not compatible with music information display. The display will show “iPod by Hand Mode”.
  - iPod can be operated when it conforms to the iPod control function.

iPod Setting

You can select following iPod Setting items.

1 Select iPod source

2 Enter Menu List mode

Press the [MENU] button.

3 Turn the [VOL] knob and press it when the desired item is displayed.

Select “Settings”.

4 Select the setting item

Turn the [VOL] knob and press it when the desired item is displayed.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

5 Make a setting

- When the “PUSH” icon is displayed (at the right edge of the display)
  Turn the [VOL] knob to select a setting value, and then press the [VOL] knob.
- When the “PUSH” icon is not displayed
  Press the [◄►] or [◄►] button to select a setting value.

6 Exit Menu List mode

Press the [MENU] button for at least 1 second, and then press it again briefly.

- The setting of “Skip Search” in <iPod Setting> (page 9) and that in <USB Setting> (page 17) are always the same. Changing the setting of one reflects the other.
Selecting the Search mode
You can select the most suited search method for the desired song from 4 types of the Search mode.

Normal playing

<tr>
<td>Move to the next column</td>
<td>Press the [◄◄] or [►►] button.</td>
</tr>
</tbody>
</table>

Up to 3 characters can be entered.

6 Determine the selected character
Turn the [VOL] knob and press it when the desired item is displayed. Select “DONE”.
Start search. When search is completed, the music search mode is selected again at the selected character position.
After this step, you need to browse. See step 4 of <Selecting a song by browsing iPod> (page 8) to select a song.

Cancelling the Direct Search
Press the [SEARCH MODE] button.

- Characters that can be entered are alphabetical characters (A to Z), numerical characters(0 to 9), and **
- ** indicates characters other than alphabetical and numerical characters. You cannot enter any more characters when entering ** in the first character position.
- If the first character string begins with an article “a”, “an”, or “the” in the Direct Search mode, it is searched for in defiance of the article.
Related Search

Searches for music of the same artist or genre as the one being played.

1. Play the music in iPod
2. Press the [SEARCH MODE] button.
3. Enter Related Search mode
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Related Search”.
4. Select the Search item
   Turn the [VOL] knob and press it when the desired Search item is selected.

<table>
<thead>
<tr>
<th>Display</th>

</thead>
<tbody>
<tr>
<td>“Search Artist”</td>
<td>Displays the album of the same artist.</td>
</tr>
<tr>
<td>“Search Album”</td>
<td>Displays music in the album in which the one being played is included.</td>
</tr>
<tr>
<td>“Search Genre”</td>
<td>Displays the artist of the same genre.</td>
</tr>
<tr>
<td>“Search Composer”</td>
<td>Displays the album including music created by the same Composer.</td>
</tr>
</tbody>
</table>

After this step, you need to browse. See step 4 of <Selecting a song by browsing iPod> (page 8) to select a song.

Cancelling the Related Search

Press the [SEARCH MODE] button.

- Related search cannot be performed while playing the Podcast.
- When the music being played has no information on browsing items or no music was found, “Not Found” is displayed.

Alphabet Search

You can select a song by alphabet. This function searches songs whose name contain the specified character(s) in the list of the selected Search item (artist, album, etc).

1. Select iPod source
2. Enter browsing mode
   Press the [MENU] button.
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Music” item.
3. Enter Alphabet Search mode
   Turn the [VOL] knob fast. Or, press the [SEARCH MODE] button and turn the [VOL] knob to select “Alphabet Search”.
4. Search for item
   Operation type | Operation
   Select the character | Press the [DISP] or [SCRL] button./Turn the [VOL] knob.
   Select an item | Press the [VOL] knob.
   Return to previous item | Press the [MENU] button.

After this step, you need to browse. See step 4 of <Selecting a song by browsing iPod> (page 8) to select a song.

Cancelling the Alphabet Search

Press the [MENU] button.

- The time of search by alphabet may become long depending on the number of songs or items in iPod.
- If the first character string begins with an article “a”, “an”, or “the” in the Alphabet Search mode, it is searched for in defiance of the article.
Skip Search

You can scroll up or down according to the number of the selected Search items so that you can quickly switch the display position.

1 Select iPod source

2 Enter browsing mode

Press the [MENU] button. Turn the [VOL] knob and press it when the desired item is displayed. Select “Music” item.

3 Press the [SEARCH MODE] button.

4 Enter Skip Search mode

Turn the [VOL] knob and press it when the desired item is displayed. Select “Skip Search”.

5 Search for item

<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move between items</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Select an item</td>
<td>Press the [VOL] knob.</td>
</tr>
<tr>
<td>Skip Search</td>
<td>Press the [DSP] or [SCRL] button. Keep pressing the button for 3 seconds or longer skips songs at 10% irrespective of the setting.</td>
</tr>
<tr>
<td>Sets the ratio of skip performed</td>
<td>Press the [◄◄] or [►►] button.</td>
</tr>
<tr>
<td>Return to previous item</td>
<td>Press the [MENU] button.</td>
</tr>
</tbody>
</table>

After this step, you need to browse. See step 4 of <Selecting a song by browsing iPod> (page 8) to select a song.

Cancelling the Skip Search

Press the [SEARCH MODE] button.

- Set the ratio with “Skip Search” in <iPod Setting> (page 9).

My Playlist

Allows you to register your favorite songs in the Playlist of this unit. You can register up to 10 songs in the Playlist.

Registering Songs in the Playlist

1 Play the song you want to register

2 Press the [SEARCH MODE] button.

3 Register the song

Turn the [VOL] knob and press it when the desired item is displayed. Select “Register My Playlist”. “## Stored (Registration number)” is displayed.

- Make a Playlist from the songs stored in one iPod. If you attempt to register a song stored in a different iPod, “No Information” appears and then “Delete My Playlist” appears. Select “Yes” to delete the Playlist when you want to remake it.
- The song displayed in the Music Search mode can be registered in the same manner. For how to use the music search function, refer to <Selecting a song by browsing iPod> (page 8).
- If you attempt to register the eleventh song, “Memory Full” appears and you cannot register it accordingly. To register the song, delete an unnecessary song.
- Do not register Podcasts. Songs you do not want to register may be registered, or playback may not be carried out correctly.

Playing the Song in the Playlist

1 Press the [SEARCH MODE] button.

2 Enter My Playlist mode

Turn the [VOL] knob and press it when the desired item is displayed. Select “Recall My Playlist”.

3 Play the song in the Playlist

Turn the [VOL] knob and press it when the desired item is displayed. Select the song you want to play.

- Turning ACC OFF or the power OFF cancels the My Playlist mode.
- The ending of a song may be cut unless the song has a silence of 1 second or longer at the end.
- Random play cannot be performed during playback of a song in the Playlist.

Deleting a Song from the Playlist

1 Press the [SEARCH MODE] button.
2 Enter Delete Playlist mode
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Delete My Playlist”.

3 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Delete One” or “Delete All”.
   Selecting “Delete All” moves to step 5 and all songs are deleted.

4 Turn the [VOL] knob and press it when the desired item is displayed.
   Select the song you want to delete.

5 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Yes”.
   “Completed” is displayed.

• You can also delete all songs from the Playlist by selecting “Delete My Playlist” described in <iPod Setting> (page 9).
• If you connect the different iPod from one registered to My Playlist, “Delete One” and “Delete All” will not appear and all songs be deleted.
Basic Operation

Listening to PANDORA®

• Connect an iPhone
Connecting the iPod with the Pandora application running will switch the source automatically to start broadcasting from the registered station.

• Select Pandora source
Press the [SRC] button.
Select the “Pandora” display.

• To use the Pandora source, set “Pandora Source” in <Initial Settings> (page 38) to “ON”.
• If no station has been selected, broadcasting does not start.

Pause and Play
Press the [▶■] button to pause or resume playback.

Thumbs up
Press the [DISP] button for at least 1 second.
“👍” is displayed.

Thumbs down
Press the [SCRL] button for at least 1 second.
“👎” is displayed.

Song skip
Press the [▶▶] button.
If the skip count limit specified by Pandora is exceeded, “No skips remaining” is displayed.

Remove iPhone
Select a source other than Pandora and iPod, and the iPod can be removed safely.

Station Search

You can select the station you want to listen to from your station list.

1 Select Pandora source

2 Enter Menu List mode
Press the [MENU] button.

3 Turn the [VOL] knob and press it when the desired item is displayed.
Select “Stations”.
A station list is displayed.

4 Switch between the station list display mode.
Press the [◄] or [►] button.

<table>
<thead>
<tr>
<th>Display</th>
<th>Overview</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Alphabet Sort”</td>
<td>Stations are displayed in alphabetical order..</td>
</tr>
<tr>
<td>“Date Sort”</td>
<td>Stations are displayed in date order.</td>
</tr>
</tbody>
</table>

5 Select a station
Turn the [VOL] knob and press it when the desired item is displayed.

6 Exit Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

Bookmark Registration

You can register the current song information or artist information in Bookmark.

1 Select Pandora source

2 Enter Menu List mode
Press the [MENU] button.

3 Turn the [VOL] knob and press it when the desired item is displayed.
Select “Bookmarks” > “Bookmark Song” (to register song information) or “Bookmark Artist” (to register artist information).
Exit Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

- This unit allows you to bookmark songs and/or artists in your personalized PANDORA® account. The bookmarks will not be available for review on the unit but will be available in your PANDORA® account.

Search and New Station Registration
You can search for the desired station by specifying its character. You can register the displayed station as a new station.

1 Select Pandora source
2 Enter Menu List mode
   Press the [MENU] button.
3 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “New Stations”.
4 Select the character to be searched for

<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move between items</td>
<td>Turn the [VOL] knob.</td>

<td>Move to the next column</td>
<td>Press the [◄◄] or [►►] button.</td>
</tr>
<tr>
<td>Return to previous item</td>
<td>Press the [MENU] button.</td>
</tr>
</tbody>
</table>

Up to 3 characters can be entered.

5 Determine the selected character
Turn the [VOL] knob and press it when the desired item is displayed.
Select “DONE”.
Start search.
After this step, you need to Search. See step 4 of <Station Search> (page 14) to select a station.

Deletion of Station
You can delete registered station information.

1 Select Pandora source
2 Enter Menu List mode
   Press the [MENU] button.
3 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Station Delete”.
4 Switch between the station list display mode.
   Press the [◄◄] or [►►] button.

<table>

</thead>
<tbody>
<tr>
<td>“Alphabet Sort”</td>
<td>Stations are displayed in alphabetical order.</td>
</tr>
<tr>
<td>“Date Sort”</td>
<td>Stations are displayed in date order.</td>
</tr>
</tbody>
</table>

5 Turn the [VOL] knob and press it when the desired item is displayed.
Select the station you want to delete.
6 Turn the [VOL] knob and press it when the desired item is displayed.
Select “YES”.
“Completed” is displayed.

Cancelling Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

- Characters that can be entered are alphabetical characters (A to Z), numerical characters (0 to 9), and other symbols (“ & , . ,, -, " # *, + , ! , $ , ^ , ◆” ).
**USB device Operation**

### Basic Operation

**Playing USB device**
- **Connect a USB device**
  When connected, the source is switched automatically and a song starts playing.
- **Select USB source**
  Press the [SRC] button.
  Select the "USB" display.

**Moving to the next folder**
Press the [SEARCH MODE] button.

**Song Select**
Press the [4] or [¢] button.

**Fast Forwards or Fast Backwards**
Hold down the [4] or [¢] button.

- No sound is output while playing audio file.

**Pause and Play**
Press the [ll] button to pause or resume playback.

**Remove USB device**
Select a source other than the USB, and the USB device can be removed safely.

### File Search

Selecting the file you want to listen to from the device being played now.

**USB device**

</tbody>
</table>

✍ For example: Searching for 🎵②.
  - Turn the [VOL] knob and press it when the desired item is displayed.
  - Select "Music" > ① > ② > 🎵②
Cancelling Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

• When you search a song in the File Search mode, the unit memorizes the position of the song being played after the search. To set a different Menu item after searching a song, press the [MENU] button for at least 1 second to move to the first hierarchy.

Play Mode
You can select a Play Mode, such as Random play and Repeat play.

1 Select USB source

2 Enter Play Mode
Press the [VOL] knob for at least 1 second.
You can also select from “Play Mode” in Menu List mode.

3 Select the Play Mode
Turn the [VOL] knob.

Display | Overview
---|---
“File Scan” | When set to “ON”, plays the intro of the music in the folder successively. “ON”/“OFF”
“Folder Random” | When set to “ON”, plays the music in the folder randomly. “ON”/“OFF”
“All Random” | When set to “ON”, plays all songs in the USB device randomly. “ON”/“OFF”
“File Repeat” | When set to “ON”, plays the music repeatedly. “ON”/“OFF”
“Folder Repeat” | When set to “ON”, plays the music in the folder repeatedly. “ON”/“OFF”

4 Make a setting
Press the [◄◄] or [►►] button.

5 Exit Play Mode
Press the [MENU] button.

USB Setting
You can select following USB Setting items.

1 Select USB source

2 Enter Menu List mode
Press the [MENU] button.

3 Turn the [VOL] knob and press it when the desired item is displayed.
Select “Settings”.

4 Select the setting item
Turn the [VOL] knob and press it when the desired item is displayed.

5 Make a setting
Press the [◄◄] or [►►] button.

6 Exit Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

Display | Overview
---|---
“Skip Search” | Sets the ratio of skip performed with <Skip Search> (page 18). “0.5%”/“1%”/“5%”/“10%”

( _ : Factory setting)

• The setting of “Skip Search” in <iPod Setting> (page 9) and that in <USB Setting> (page 17) are always the same. Changing the setting of one reflects the other.
• This operation is effective only for the files registered in the database created with KENWOOD Music Editor.
USB device Operation

Skip Search
You can scroll up or down according to the number of the selected Search items so that you can quickly switch the display position.

1 Select USB source
2 Enter File Search mode
   Press the [MENU] button.
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Music” item.
3 Enter Skip Search mode
   Press the [SEARCH MODE] button.
4 Search for music

<table>

<td>Press the [◄◄] or [►►] button.</td>
</tr>
<tr>
<td>Return to previous item</td>
<td>Press the [MENU] button.</td>
</tr>
</tbody>
</table>

After this step, see step 4 of <File Search> (page 16) to select a song.

Cancelling the Skip Search
Press the [SEARCH MODE] button.

Function of remote control

Direct Music Search
Searching the music by entering the file number.

1 Enter Direct Music Search mode
   Press the [DIRECT] button on the remote control.
2 Enter the music number
   Press the number buttons on the remote control.
3 Search the music
   Press the [◄◄] or [►►] button.

Cancelling Direct Music Search
Press the [DIRECT] button.

- Direct Music Search cannot be performed during playing of “Music Editor” media, Random play, or scan play.

Cancelling the Skip Search
Press the [SEARCH MODE] button.

- This operation is effective only for the files registered in the database created with KENWOOD Music Editor.
- Set the ratio with “Skip Search” in <USB Setting> (page 17).
Music CD/ Audio file Operation

Basic Operation

Drop open the faceplate
Press the Release button.

• Push the faceplate on the left side, and return it to its former position.

Disc play
• A disc inserted.
When inserted, the source is switched automatically and a song is starts playing.
When a CD is inserted, the “CD-IN” indicator is ON.

• Select CD source
Press the [SRC] button.
Select the “CD” display.

Disc ejection
Press the [button].

Moving to the next folder
Press the [SEARCH MODE] button.

• This operation can be performed only for the Audio file.

Function of Internal CD source

Music Search
Selecting the music you want to listen to from the disc being played now.

4 Make a setting

Press the [◄◄] or [►►] button.

5 Exit Play Mode

Press the [MENU] button.

Basic Operation of Disc Changer (Optional)

Select CD changer source

Press the [SRC] button.
Select the “CD CHANGER” display.

Moving to the next disc

Press the [SEARCH MODE] button.

Song Select

Press the [◄◄] or [►►] button.

Fast Forwards or Fast Backwards

Hold down the [◄◄] or [►►] button.

Pause and Play

Press the [►►|] button to pause or resume playback.
Function of remote control

**Direct Music Search**

Searching the music by entering the track number.

1. **Enter Direct Music Search mode**
   - Press the [DIRECT] button on the remote control.

2. **Enter the music number**
   - Press the number buttons on the remote control.

3. **Search the music**
   - Press the [◄◄] or [►►] button.

*Cancelling Direct Music Search*

- Press the [DIRECT] button.

- Direct Music Search cannot be performed during playing of Random play or scan play.

**Function of disc changer with remote control**

**Direct Disc Search**

Searching the disc by entering the disc number.

1. **Enter Direct Disc Search mode**
   - Press the [DIRECT] button on the remote control.

2. **Enter the disc number**
   - Press the number buttons on the remote control.

3. **Search the disc**
   - Press the [FM] or [AM] button.

*Cancelling Direct Disc Search*

- Press the [DIRECT] button.

- Direct Disc Search cannot be performed during Random play or scan play.

- Input "0" to select disc 10.
HD Radio™ Tuner Operation

3 Enter Preset Memory mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “List & Memory”.

4 Select the number to put in the memory
Turn the [VOL] knob and press [VOL] knob for at least 2 seconds when the desired item is displayed.
Select a preset number.

<table>
<thead>
<tr>
<th>Display</th>
<th>Overview</th>
</tr>
</thead>
<tbody>
<tr>
<td>“List &amp; Memory”</td>
<td></td>
</tr>
<tr>
<td>“-1”</td>
<td>Preset number 1. (FM/ AM/ Mixed)</td>
</tr>
<tr>

<td>Preset number 18. (FM)</td>
</tr>
</tbody>
</table>

• You can register up to 18 FM stations and 6 AM stations. Selecting “Mixed” for “Tuner Preset Type” allows you to register up to six stations including FM, AM, and another Satellite Radio Tuner regardless of the selected source. See “Tuner Preset Type” of <Initial Settings> (page 38).

Cancelling the Preset Memory mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

Auto Memory Entry
Putting stations with good reception in the memory automatically.

1 Select the radio band you wish to store in the preset memory

2 Enter Menu List mode
Press the [MENU] button.

3 Enter Auto Memory Entry mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Settings” > “Auto Memory”.

4 Open Auto Memory Entry
Turn the [VOL] knob and press it when the desired item is displayed.
Select “YES”.
When 18 stations (FM) or 6 stations (AM) that can be received are put in the memory, auto memory entry closes.

Basic Operation

Selecting HD Radio source
Press the [SRC] button.
Select the “HD RADIO” display.

Selecting the Receiving Band
1. Enter Menu List mode
Press the [MENU] button.
2. Turn the [VOL] knob and press it when the desired item is displayed.
Select “FM” or “AM”.

Selecting the Receiving station or channel
Press the [◄◄] or [►►] button.
During reception of stereo stations the “ST” indicator is light up.
Details of the station selecting in operation are set in the “Seek Mode” of <HD Radio™ Setting> (page 23).

Station Preset Memory
Putting a station in the memory.

1 Select the radio band and tune in a desired radio station you wish to store in the preset memory

2 Enter Menu List mode
Press the [MENU] button.
Preset Tuning

Recalling the stations in the memory.

1 Select the radio band
2 Enter Menu List mode
   Press the [MENU] button.
3 Select a desired station in the memory
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “List & Memory” ➔ Preset number.

HD Radio™ Setting

You can select following HD Radio Setting items.

1 Select the HD Radio source
2 Enter Menu List mode
   Press the [MENU] button.
3 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Settings”.
4 Select the setting item to adjust
   Turn the [VOL] knob and press it when the desired item is displayed.

<tr>
<td>Cancelling Direct Access Tuning</td>
<td>–</td>
</tr>
</tbody>
</table>

4 Enter the frequency or Channel
   Press the number buttons.
   Example of frequency input:

<table>
<thead>
<tr>
<th>Desired frequency</th>
<th>Press button</th>
</tr>
</thead>
<tbody>
<tr>
<td>92.1 MHz (FM)</td>
<td>[9], [2], [1]</td>
</tr>
<tr>
<td>810 kHz (AM)</td>
<td>[8], [1], [0]</td>
</tr>
</tbody>
</table>

5 Tune in to the entered frequency or Channel
   Press the [◄◄] or [►►] button.

Cancelling Direct Access Tuning

Press the [DIRECT] button on the remote control.
iTunes Tagging

Using an iTunes Tagging enabled HD Radio receiver you can tag your music. When you hear a song you enjoy on your local HD Radio station, you only have to press the [SEARCH MODE] button. The song’s information will then be saved on this unit. The saved songs will then show up in a playlist called “Tagged” in iTunes every next time you sync your iPod to your computer. So then you just need to click and then easily buy and download the song you were tagging directly from the Apple iTunes Music Store.

1 Saves song’s information

Press the [SEARCH MODE] button.  
“TAG” will be indicated on the display when song information can be registered.

- Turn “ON” the “Tagging” of <HD Radio™ Setting> (page 23) when using this function.
- Up to 50 TAGs (song’s information) can be registered to this unit. When iPod is connected, the TAG information registered to this unit is transferred to the connected iPod.
- The memory usage can be checked by selecting “TAG Memory” of <HD Radio™ Setting> (page 23).
Operation of hands-free phoning

Before use the cell-phone, you need to connect cell-phone to this unit.

- For details on the Bluetooth cell-phone with the hands-free function, see <About the Cell-Phone> (page 61).

1 Enter easy pairing mode
Press the [ ] button for at least 1 second.

2 “Searching” is displayed.
Search for the Bluetooth device.
When search is completed, “Finished” is displayed.

3 Select a cell-phone name
Turn the [VOL] knob and press it when the desired item is displayed.

4 Input the PIN code
1. Turn the [VOL] knob and press it when the desired item is displayed.
   Select the digit.
2. Turn the [VOL] knob to select the numbers, and then press the [VOL] knob.

5 Transmit the PIN code
If “Pairing Success” is displayed, registration is completed.
When “Confirm Phone” is displayed, confirm connection with a cell-phone operation.

6 The receiver is connected to a cell-phone, with “HF Connect” displayed, and exits the easy pairing mode.

- For more details, see <Easy pairing function> (page 48).

Receiving a Call

Answering a Phone Call
Press the [VOL] knob.

- The following operations disconnect the line:
  - Insert a CD.
  - Connect a USB device.
  - The name of the calling party is displayed if it has already been registered in the Phone Book.

Rejecting an Incoming Call
Press the [ ] or [SRC] button.

During a Call

Disconnecting a Call
Press the [ ] or [SRC] button.

Switching to the Private Mode
Press the [ ] knob.
Switches between Private talk (“PRIVATE”) and Hands-free talk each time this button is pressed.

- Depending on the type of your cell-phone, switching to the private talk mode may select the source that was used before commencing the hands-free connection.
  If this happens, the source cannot be switched back to the hands-free talk mode by operating this unit. Operate your cell-phone to return to the hands-free talk mode.

Adjusting the Voice Volume during a Call
Turn the [VOL] knob.

Call Waiting

Answering Another Incoming Call with the Current Call Suspended
1 Press the [VOL] knob.
2 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “ANSWER”.

Answering another Incoming Call after Terminating the Current Call
Press the [ ] or [SRC] button.

Continuing the Current Call
1 Press the [VOL] knob.
2 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “REJECT”.
**Answering the Waiting Call after Terminating the Current Call**
Press the [ ] or [SRC] button.

**Switching between the Current Call and Waiting Call**
Press the [VOL] knob.
Each pressing of this knob switches the calling party.

**Other Functions**

**Clearing the Disconnection Message**
Press the [ ] button.
“HF Disconnect” disappears.

**Making a Call**

1. **Enter Bluetooth mode**
   Press the [ ] button.

2. **Select a dialing method**
   Turn the [VOL] knob and press it when the desired item is displayed.

<table>

Operation method of each mode is described below.

3. **Exit the dialing method mode**
Press the [ ] button.

**Speed Dialing (Preset Dial)**

1. **Enter Bluetooth mode**
   Press the [ ] button.

2. **Select the preset dial mode**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Preset call”.

3. **Select the number you want to recall from the memory**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select preset number.
   Phone number is displayed.

4. **Exit the preset dial mode**
   Press the [MENU] button.

5. **Make a call**
   Press the [VOL] knob.
   · You need to register the preset dial number. Refer to <Registering to the Preset Dial Number List> (page 29).
Operation of hands-free phoning

Calling a Number in the Phone Book

1 Enter Bluetooth mode
Press the [📞] button.

2 Select the Phone Book mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Phonebook”.

3 Select the character to be searched for

<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move to the next character.</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Move to the next row.</td>
<td>Press the [◄◄] or [►►] button.</td>
</tr>
<tr>
<td>Determine the selected character.</td>
<td>Press the [VOL] knob.</td>
</tr>
</tbody>
</table>

4 Select the name

<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move to the next phone number.</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Determine the selected phone number.</td>
<td>Press the [VOL] knob.</td>
</tr>
</tbody>
</table>

☞ Switching between Display Modes
Press the [DISP] button.
Pressing this button each time switches between name and telephone number.

5 Make a call
Press the [VOL] knob.

☞
- During search, a non-accent character such as “u” is searched for instead of an accent character such as “ü”.

Calling a Number in the Call log

4 Make a call
Press the [VOL] knob.

☞
- The outgoing call list and the incoming call list, and the missed call list are the lists of calls originated from and received at this unit. They are not the ones stored in the cell-phone memory.

Dial a Number

1 Enter Bluetooth mode
Press the [📞] button.

2 Select the number dial mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Number Dial”.

3 Enter a phone number

<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select the numbers.</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Move to the next digit.</td>
<td>Press the [►►] button.</td>
</tr>
<tr>
<td>Delete the last digit.</td>
<td>Press the [◄◄] button.</td>
</tr>
</tbody>
</table>

☞
- You can input max 25 digits.

☞
- Press the number ([1] – [0]), #([FM]), *([AM]), or +([►►]) button on the remote controller.
- To erase the entered phone number digit by digit:
  Press the [◄◄] button on the remote controller.

4 Make a call
- Press the [VOL] knob.
- Press the [DIRECT] button on the remote controller.
Make a Voice Dialing Call

1 Enter Bluetooth mode
   Press the [📞] button.

2 Select voice recognition mode
   Turn the [VOL] knob and press it when the
desired item is displayed.
   Select “Voice Recognize”.

3 “PB Name?” is displayed.
   When a beep is heard, say the name within 2
seconds.

4 “PN Type” is displayed.
   When a beep is heard, say the category name
within 2 seconds.

5 Make a call
   Press the [VOL] knob.
   This step is the same as step 4 of the procedure
in <Calling a Number in the Phone Book> (page
28). You can make a call or select a category.

• If your voice cannot be recognized, a message is
displayed. Pressing the [VOL] knob allows you to retry
voice input. Refer to <Troubleshooting Guide> (page 72).
• Both the name and category require registration of
a voice tag. Refer to <Setting a Voice Command for
Category> (page 53).
• Audio sound is not output during voice recognition.

Registering to the Preset Dial Number List

1 Select the phone number you wish to register
   Select the phone number with reference to the
following:
   - Calling a Number in the Phone Book (page 28)
   - Calling a Number in the Call log (page 28)
   - Dial a Number (page 28)

2 Enter Preset Memory mode
   Press the [VOL] button for at least 1 second.

3 Select the Preset number to put in the
   memory
   Turn the [VOL] knob and press it for at least 1
second when the desired item is displayed.
   Select preset number.

4 Determine the Preset number to put in the
   memory
   Turn the [VOL] knob and press it when the
desired item is displayed.

Exit the Preset Memory mode
   Press the [MENU] button.

Display of Phone Number type
   (category)

The category items in the Phone Book are displayed as follows:

<table>
<thead>
<tr>
<th>Display</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>“GENERAL”/📞</td>
<td>General</td>
</tr>
<tr>
<td>“HOME”/🏠</td>
<td>Home</td>

</tr>
<tr>
<td>Clock display mode</td>
<td>Displays the clock.</td>
</tr>
<tr>
<td>Display off mode</td>
<td>Turns off the display and illumination.</td>
</tr>
</tbody>
</table>

- When the 5-line display mode is selected, the status (ON/ OFF indicator of each function) can be displayed on the first line, and the icon of the currently selected source and the text information title can be displayed on the left side by the following <Customization of 5-line Display Mode & 3-line Display Mode & iPod-like Display Mode> (page 32) operation.
- Status display: Select “Settings” > “DISP & ILLUMI” > “Display Select” > “Status”
- Side display: Select “Settings” > “DISP & ILLUMI” > “Display Select” > “Side Select”
- When “Display off mode” is selected, you can select only “Type Select” for “Display Select”.

### Text scroll

Press the [SCRL] button.

The displayed text scrolls.

Display Setting

You can select following Display Setting items.

1. **Select the source**
   
   Pressing the [SRC] button repeatedly switches source.

2. **Enter Menu List mode**
   
   Press the [MENU] button.

3. **Enter Display Setting mode**
   
   Turn the [VOL] knob and press it when the desired item is displayed.
   
   Select “Settings” > “DISP & ILLUMI”.

4. **Select the setting item to adjust**
   
   Turn the [VOL] knob and press it when the desired item is displayed.

   Turn the [VOL] knob.

4. **Set cities for Home/ Sub**
   Press the [◄►] or [◄►] button.

5. **Exit Menu List mode**
   Press the [MENU] button for at least 1 second, and then press it again briefly.

---

Remarks

- **City Select**
  Set a time zone for your area as “Home”. When you set a time zone for different area to the “Sub”, clocks for two time zones can be displayed on the clock display. See <Customization of Clock Display Mode> (page 34).
  For time zone list, see <City list> (page 64).
Clock and Other Functions

Initial Settings

You can select following Initial Setting items.

1 Select the Standby
Pressing the [SRC] button repeatedly switches source.
Select the “STANDBY” display.

2 Enter Menu List mode
Press the [MENU] button.

3 Enter Initial Setting mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Initial Settings”.

4 Select the setting item to adjust
Turn the [VOL] knob.

5 Make a setting
- When the “PUSH” icon is displayed (at the right edge of the display)
  Turn the [VOL] knob to select a setting value, and then press the [VOL] knob.
- When the “PUSH” icon is not displayed
  Press the [◄][►] button to select a setting value.

6 Exit Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

Demonstration mode Setting

Turning the demonstration mode ON/OFF.

1 Enter Menu List mode
Press the [MENU] button.

2 Enter Demonstration mode setting
Turn the [VOL] knob and press it when the desired item is displayed.
Select “DEMO Mode”.

3 Set the Demonstration mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “ON” or “OFF”.

4 Exit Menu List mode
Press the [MENU] button.
Theft Deterrent Faceplate

The faceplate of the unit can be detached and taken with you, helping to deter theft.

Removing the Faceplate

1 Press the Release button.
   Drop open the faceplate.

2 Drawing the faceplate to left side pull it to forward and remove it.

⚠️
- The faceplate is a precision piece of equipment and can be damaged by shocks or jolts.
- Keep the faceplate in its faceplate case while detached.
- Do not expose the faceplate (and the faceplate case) to direct sunlight or excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.

Reattaching the Faceplate

3 Align the shaft on the unit with the depression on the faceplate.

4 Push the faceplate in until it clicks.
   The faceplate is locked in place, allowing you to use the unit.
Audio Adjustments

Audio Control

<td>Sets each source’s volume as a difference from the basic volume. &quot;–8&quot; — “0” (AUX: &quot;–8&quot; — “+8&quot;)</td>
</tr>
</tbody>
</table>

1. Select the source
   Pressing the [SRC] button repeatedly switches source.
   Select a source other than “STANDBY”.

2. Enter Audio Control mode
   Press the [VOL] knob.

3. Select the setting item to adjust
   Turn the [VOL] knob and press it when the desired item is displayed.

4. Make a setting
   Press the [◄◄] or [►►] button to select a setting value, and then press the [VOL] knob.

5. Exit Audio Control mode
   Press the [MENU] button for at least 1 second.

Remarks

- DSP Set
  When "DSP Set" is set to “Bypass”, the DSP function is disabled, and the colored items can not be set.

- HIGHWAY-SOUND
  Increases the volume of faintest sound being lost by road noises to make the sound more audible. Additionally, it accentuates bass sound being lost by road noises to make the bass sound more dynamic. This function is not effective for the Tuner source.

- Supreme+ (Supreme Plus)
  Technology to extrapolate and supplement with proprietary algorithm, the high-frequency range that is cut off when encoding. The bass and vocal sound that are cut off by encoding are supplemented for the reproduction of natural sound quality. Supplementing is optimized by compression format (AAC, MP3 or WMA) and processed according to bit rate. The effect is negligible with music that is encoded at high bit rate, variable bit rate or has minimal high frequency range. The bass and vocal sound of Music CD/ iPod is also supplemented.

- Dual Zone System
  Main source and sub source (Auxiliary input) output Front channel and Rear channel separately.
### Preset Equalizer curve Select

<tr>
<td>“Front”</td>
<td>Front seat</td>
</tr>
</tbody>
</table>

(  : Factory setting)

1 Select the source
Pressing the [SRC] button repeatedly switches source.
Select a source other than “STANDBY”.

2 Enter Audio Control mode
Press the [VOL] knob.

3 Enter Preset position setting mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Position” > “Preset Position”.

4 Select the seat you want to compensate
Press the [◄◄] or [►►] button.

5 Exit Audio Control mode
Press the [MENU] button for at least 1 second.

Function of KDC-X995

Listening Position Fine Adjustments

Making fine adjustment of the value specified at Preset position selection per speaker.

1 Select the source
Pressing the [SRC] button repeatedly switches source.
Select a source other than “STANDBY”.

2 Enter Audio Control mode
Press the [VOL] knob.

3 Enter Manual position setting mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Position” > “DTA”.

4 Select the speaker you want to set
Turn the [VOL] knob and press it when the desired value is displayed.

5 Set the value
Press the [◄◄] or [►►] button.
Adjust between 0 and 5.58 feet.
Press the [VOL] knob for at least 1 second if you want to execute the “INITIAL”.

6 Exit Audio Control mode
Press the [MENU] button for at least 1 second.

Dual Zone System

Main source and sub source (Auxiliary input) output Front channel and Rear channel separately.

<table>
<thead>
<tr>
<th>Display</th>

</table>

6 Repeat steps 3 to 4 to complete the X’Over settings.

7 Exit Audio Control mode
Press the [MENU] button for at least 1 second.

Audio Preset Memory

Registering the value setup by Sound Control.

1 Setup Sound Control
Refer to the following operations to setup the Sound Control.
- Car Type Selection (page 44)
- Speaker Setting (page 44)
- Car Type Fine Adjustments (page 45)
- X’Over Setting (page 46)
- Manual Equalizer Control (page 41)
- Listening Position Selection (page 42)
- Listening Position Fine Adjustments (page 42)

2 Enter Audio preset memory mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Detailed Setup” > “Preset” > “Memory”.

3 Select the number to put in the memory
Turn the [VOL] knob and press it when the desired item is displayed.
Select a preset number.

4 Turn the [VOL] knob and press it when the desired item is displayed.
Select “YES”.
“Memory Completed” is displayed.

5 Exit Audio Control mode
Press the [MENU] button for at least 1 second.

- Register 2 patterns of Audio Preset Memory.
- Preset number “1”:
  When you press the Reset, all the sources will be the setting value which is registered.
- Preset number “1” and “2”:
  The memory cannot be erased by the Reset button.
- This function cannot be registered when the iPod Equalizer set in <Preset Equalizer curve Select> (page 41).
**Audio Preset Recall**

Recalling the sound setup registered by <Audio Preset Memory> (page 46).

1 **Select the source**
   Pressing the [SRC] button repeatedly switches source.
   Select a source other than “STANDBY”.

2 **Enter Audio preset recall mode**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Detailed Setup” ➔ “Preset” ➔ “Recall”.

3 **Select the number to recall in the memory**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select preset number.

4 **Turn the [VOL] knob and press it when the desired item is displayed.**
   Select “YES”.
   “Recall Completed” is displayed.

5 **Exit Audio Control mode**
   Press the [MENU] button for at least 1 second.

- The “User” of <Preset Equalizer curve Select> (page 41) is changed to the value which was recalled.
- The Equalizer curve is changed to the value which was recalled by the selected source.
Bluetooth Setup

Easy pairing function

1 Enter easy pairing mode
   Press the [ ] button for at least 1 second.
   Any of the following is displayed depending on cell-phone registration condition:
   - “Searching”: When registering a cell-phone for the first time.
   - “(cell-phone name)”: When a cell-phone has already been registered.
   - “Device Full”: When maximum of five cell-phones have already been registered.

When registering a cell-phone for the first time, registering a cell-phone

2 “Searching” is displayed.
   Search for the Bluetooth device.
   When search is completed, “Finished” is displayed.

3 Select a cell-phone name
   Turn the [VOL] knob and press it when the desired item is displayed.

4 Input the PIN code

</tr>
</tbody>
</table>

5 Transmit the PIN code
   Press the [VOL] knob.
   If “Pairing Success” is displayed, registration is completed.
   When “Confirm Phone” is displayed, confirm connection with a cell-phone operation.

6 The receiver is connected to a cell-phone, with “HF Connect” displayed, and exits the easy pairing mode.

When a cell-phone has already been registered, or maximum of five cell-phones have already been registered/ selecting a cell-phone

2 “(cell-phone name)” or “Device Full” is displayed.

3 Select a cell-phone name
   Turn the [VOL] knob.
   ➤ To register a new cell-phone, select “Device Search”, then go to “When registering a cell-phone for the first time.”

4 Set up the cell-phone name
   Press the [VOL] knob.
   “*(name)” or “-(name)” is displayed.
   “*”: The selected Bluetooth device is busy.
   “-”: The selected Bluetooth device is on standby.
   “ ” (blank): The Bluetooth device is deselected.
   ➤ If a Bluetooth device is already selected, deselect it, and then select a different one.

5 Exit easy pairing mode
   Press the [MENU] button for at least 1 second.

Deleting the registered cell-phone

2 “(cell-phone name)” or “Device Full” is displayed.

3 Select a cell-phone name
   Turn the [VOL] knob.

4 Delete the selected cell-phone
   Press the [VOL] knob for at least 2 seconds.

5 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “YES”.

Bluetooth Setting

You can select following Bluetooth Setting items.

1 Enter Bluetooth mode
   Press the [ ] button.
   ➤ You can also select from “Settings” in Menu List mode.

2 Turn the [VOL] knob and press it when the desired item is displayed.
   Select “BT Settings”.

3 Select the Menu item
   Turn the [VOL] knob and press it when the desired item is displayed.

(*** : Factory setting)

### 4 Make a setting

- When the “**Push**” icon is displayed (at the right edge of the display)
  Turn the [VOL] knob to select a setting value, and then press the [VOL] knob.
- When the “**Push**” icon is not displayed
  Press the [◄◄] or [►►] button to select a setting value.

### 5 Exit BT Settings mode

Press the (menu) button.

### Remarks

- “Auto Answer” (Setting the Time Interval for Automatic Answer)
  This function automatically answers (responds to) a call after lapse of the preset time interval for automatic answer. “OFF”: Does not answer the phone call automatically. “0”: Automatically answers the phone call at once. “1s” – “99s”: Automatically answers the phone call after lapse of 1 – 99 seconds.

  - If the time set in the cell-phone is shorter than that set in the unit, the former will be used.
  - This function does not work for call waiting.

- “Bluetooth HF” (Setting up the Voice Output Speakers)
  Select the speaker which is further from the microphone in order to prevent howling or echoes.

- “BT F/W Update” (Displaying the Firmware Version)
  Display the version of the firmware of this unit.
  For how to update the firmware, access our web site. http://www.kenwood.com/cs/ce/bt/
Bluetooth Setup

Registering Bluetooth device
To make your Bluetooth device (cell-phone) usable with this unit, you need to register it (pairing). You can register up to 5 Bluetooth devices to this unit.

Registering from this unit
1. Enter Bluetooth mode
   Press the [Bluetooth] button.
   ✍ You can also select from “Settings” in Menu List mode.

2. Enter Bluetooth device registration mode
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “BT Settings” > “Pairing” > “Device Regist.”.
   Search for the Bluetooth device.
   When search is completed, “Finished” is displayed.

3. Select a Bluetooth device
   Turn the [VOL] knob and press it when the desired item is displayed.

4. Input the PIN code
<table>
<thead>
<tr>
<th>Operation type</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select the numbers.</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Move to the next digit.</td>
<td>Press the [Next] button.</td>
</tr>
<tr>
<td>Delete the last digit.</td>
<td>Press the [Prev] button.</td>
</tr>
</tbody>
</table>

5. Transmit the PIN code
   Press the [VOL] knob.
   If “Pairing Success” is displayed, registration is completed.
   ✍ If the error message appears even though the PIN code is correct, try <Registering Special Bluetooth device>.

6. Return to the device list
   Press the [MENU] button.

7. Exit BT Settings mode
   Press the [Bluetooth] button.
   ✍ • This unit allows up to eight digits to be input for a PIN code. If a PIN code cannot be input from this unit, it can be input from the Bluetooth device.
   • If there are 5 or more Bluetooth devices registered, you cannot register a new Bluetooth device.

Registering Special Bluetooth device
Allow registration of a special device that cannot be registered normally (pairing).
1. Select Special device registration mode
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “BT Settings” > “Pairing” > “SPCL DVC Select”.

2. Enter Special device registration mode
   Press the [VOL] knob.
   A list is displayed.

3. Select a device name
   Turn the [VOL] knob and push the center when the desired device name is displayed.
   If “Completed” is displayed, registration is completed.

4. Go through the procedure step 3 of <Registering from this unit> and complete the registration (pairing).

Cancelling Special device registration mode
Press the [MENU] button for at least 1 second.
   ✍ • If the device name is not in the list, select “Other Phones”.

KDC-X995/ KDC-BT948HD
**Registering PIN Code**

By operating the Bluetooth device, specify the PIN code necessary for registering this unit.

1. **Enter Bluetooth mode**
   - Press the [ ] button.
   - You can also select from “Settings” in Menu List mode.

2. **Enter PIN code edit mode**
   - Turn the [VOL] knob and press it when the desired item is displayed.
   - Select “BT Settings” > “Detailed Setup” > “PIN Code Edit”.
   - The current setting of PIN code is displayed.

3. **Input the PIN code**

<table>
<thead>
<tr>
<th>Operation type</th>

</thead>
<tbody>
<tr>
<td>Select the numbers.</td>
<td>Turn the [VOL] knob.</td>
</tr>
<tr>
<td>Move to the next digit.</td>
<td>Press the [ ] button.</td>
</tr>
<tr>
<td>Delete the last digit.</td>
<td>Press the [ ] button.</td>
</tr>
</tbody>
</table>

4. **Register a PIN code**
   - Press the [VOL] knob.
   - If “Completed” is displayed, registration is completed.

5. **Exit BT Settings mode**
   - Press the [ ] button.
   - By default, “0000” is specified.
   - A PIN code can be specified with up to eight digits.

**Selecting the Bluetooth device You Wish to Connect**

When two or more Bluetooth devices have already been registered, you need to select the Bluetooth device you wish to use.

1. **Enter Bluetooth mode**
   - Press the [ ] button.
   - You can also select from “Settings” in Menu List mode.

2. **Select Bluetooth device selection mode**
   - Turn the [VOL] knob and press it when the desired item is displayed.
   - Select “BT Settings” > “Pairing” > “Phone Selection”.

3. **Enter Bluetooth device selection mode**
   - Press the [VOL] knob.
   - “(name)” is displayed.

4. **Select the Bluetooth device**
   - Turn the [VOL] knob.
   - “✱(name)” or “-(name)” is displayed.
   - “✱”: The selected Bluetooth device is busy.
   - “-”: The selected Bluetooth device is on standby.
   - “ ” (blank): The Bluetooth device is deselected.

5. **Set up the Bluetooth device**
   - Press the [VOL] knob.
   - If a Bluetooth device is already selected, deselect it, and then select a different one.

6. **Exit BT Settings mode**
   - Press the [ ] button.
   - If a Bluetooth device is already selected, deselect it, and then select a different one.
Deleting a Registered Bluetooth device

You can delete a registered Bluetooth device.

1 Enter Bluetooth mode
   Press the \([\text{\textcircled{\(\text{\textregistered}\)}}]\) button.
   ✎ You can also select from “Settings” in Menu List mode.

2 Enter Bluetooth device deletion mode
   Turn the \([\text{VOL}]\) knob and press it when the desired item is displayed.
   Select “BT Settings” \(\rightarrow\) “Pairing” \(\rightarrow\) “Device Delete”.
   “(name)” is displayed.

3 Select the Bluetooth device
   Turn the \([\text{VOL}]\) knob.

4 Delete the selected Bluetooth device
   Press the \([\text{VOL}]\) knob.

5 Turn the \([\text{VOL}]\) knob and press it when the desired item is displayed.
   Select “YES”.
   “Delete” is displayed.

6 Exit BT Settings mode
   Press the \([\text{\textcircled{\(\text{\textregistered}\)}}]\) button.
   ✎ When a registered cell-phone is deleted, its Phone Book, log, SMS, and voice tag are also deleted.

Downloading the Phone Book

Download the phone book data from the cell-phone to this unit so that you can use the Phone Book of this unit.

To download automatically
   If the cell-phone supports a phone book synchronization function, the phone book is downloaded automatically after Bluetooth connection.
   ✎ Setting on the cell-phone may be required.
   • If no phone book data is found in the unit even after the compete display, your cell-phone may not support automatic download of phone book data. In this case, try downloading manually.

To download from the cell-phone manually
   1 By operating the cell-phone, end the hands-free connection.

   2 By operating the cell-phone, send the phone book data to this unit
      By operating the cell-phone, download the phone book data to this unit.
      • During downloading:
        “Downloading” is displayed.
      • After completion of downloading:
        “Completed” is displayed.

   3 By operating the cell-phone, start the hands-free connection.

To clear the downloading completion message
   Press any button.
   ✎
   • Up to 500 phone numbers can be registered for each registered cell-phone.
   • Up to 25 digits can be registered for each phone number along with up to 50* characters representing a name. (* 50: Number of alphabetic alphabetical characters. Fewer characters can be input depending on the type of characters.)
   • To cancel downloading of the phone book data, operate the cell-phone.

Adding a Voice Dialing Command

Add a voice tag to the phone book for voice dialing. You can register up to 30 voice tags.

1 Enter Bluetooth mode
   Press the \([\text{\textcircled{\(\text{\textregistered}\)}}]\) button.
   ✎ You can also select from “Settings” in Menu List mode.

2 Enter Phone book name edit mode
   Turn the \([\text{VOL}]\) knob and press it when the desired item is displayed.
   Select “BT Settings” \(\rightarrow\) “Voice Tag” \(\rightarrow\) “PB Name Edit”.

3 Search for the name to register
   Select the name to register with reference to 4 in <Calling a Number in the Phone Book> (page 28). If a voice tag has already been registered for a name, “*” is displayed before the name.

4 Select a mode
   Turn the \([\text{VOL}]\) knob.

<table>
<thead>
<tr>
<th>Display</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>“PB Name Regist”</td>
<td>Register a voice tag.</td>
</tr>
<tr>
<td>“PB Name Check”*</td>
<td>Play a voice tag.</td>
</tr>
<tr>
<td>“PB Name Delete”*</td>
<td>Delete a voice tag.</td>
</tr>
</tbody>
</table>
   * Displayed only when a name for which a voice tag has been registered is selected.
Select “PB Name Regist” (Regist)

5 Press the [VOL] knob.

6 Register a voice tag (first)
   “Enter Voice 1” is displayed.
   When a beep is heard, say a voice tag within 2 seconds.

7 Confirm the voice tag (second)
   “Enter Voice 2” is displayed.
   When a beep is heard, say the same voice tag as that you said in step 6 within 2 seconds.
   “Completed” is displayed.

8 End registration
   Press the [VOL] knob.
   Return to step 3. You can register another voice tag continuously.

   • If your voice cannot be recognized, a message is displayed. Pressing the [VOL] knob allows you to retry voice input. Refer to <Troubleshooting Guide> (page 72).

Select “PB Name Check” (Play)

5 Press the [VOL] knob.
   Play the registered voice and return to step 3.

Select “PB Name Delete” (Delete)

5 Delete a voice tag
   Press the [VOL] knob.

6 Turn the [VOL] knob to select “YES”, and then press the [VOL] knob.

Exit BT Settings mode
   Press the [・] button.

   • Audio sound is not output during voice tag registration.

Setting a Voice Command for Category

Add a voice tag to the phone number category (type) for voice calling.

1 Enter Bluetooth mode
   Press the [・] button.
   ➠ You can also select from “Settings” in Menu List mode.

2 Enter Phone Number type edit mode
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “BT Settings” > “Voice Tag” > “PN Type Edit”.

3 Select the category (type) you wish to set
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “General”, “Home”, “Office”, “Mobile”, or “Other”

4 Select a mode
   Turn the [VOL] knob.

<table>
<thead>
<tr>
<th>Display</th>
<th>Operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>“PN Type Regist”</td>
<td>Register a voice tag.</td>
</tr>
</tbody>
</table>

   • Displayed only when a name for which a voice tag has been registered is selected.

5 Register the category (type) by performing steps 5 to 8 in <Adding a Voice Dialing Command> (page 52).

6 Exit BT Settings mode
   Press the [・] button.

   • Set the voice tag for all the 5 categories. If the voice tag is not registered for all the categories, the Phone book may not be recalled by voice command.
SMS (Short Message Service)

**Downloading the SMS**

Download the short message (SMS) arrived at the cell-phone so that it can be read on this unit.

1. **Enter Bluetooth mode**
   - Press the [TEL] button.
   - You can also select from "Settings" in Menu List mode.

2. **Enter SMS download mode**
   - Turn the [VOL] knob and press it when the desired item is displayed.
   - Select "BT Settings" > "SMS Download".

3. **Start downloading**
   - Press the [VOL] knob.
   - "Downloading" is displayed.
   - When the downloading finishes, "Completed" is displayed.

4. **Exit BT Settings mode**
   - Press the [TEL] button.
   - The cell-phone must be able to transmit the SMS using Bluetooth. Setting on the cell-phone may be required. If the cell-phone does not support SMS function, the SMS download item in Function Control mode is not displayed.
   - When the SMS is downloaded from the cell-phone, the unopened messages in the cell-phone are opened.
   - The already-read and unread short messages can be respectively downloaded up to 75.
   - Up to 200 characters can be received per SMS.

5. **When a new message arrives**
   - "SMS Received" is displayed.
   - The display disappears with any operations.

**Displaying the SMS**

1. **Enter Bluetooth mode**
   - Press the [TEL] button.

2. **Enter SMS Inbox mode**
   - Turn the [VOL] knob and press it when the desired item is displayed.
   - Select "SMS Inbox".
   - A message list appears.

3. **Select a message**
   - Turn the [VOL] knob.
   - Each pressing of the [DISP] button switches between telephone number or name and message reception date.

4. **Display the text**
   - Press the [VOL] knob.
   - Turning the [VOL] knob scrolls the message.
   - Pressing the [VOL] knob again returns to the message list screen.

5. **Exit SMS Inbox mode**
   - Press the [MENU] button.

6. **Exit BT Settings mode**
   - Press the [TEL] button.
   - The unopened message is displayed at the beginning of the list. Other messages are displayed in the order of reception.
   - The SMS that has arrived when the cell-phone is not linked with Bluetooth cannot be displayed. Download the SMS.
   - The short message cannot be displayed during downloading the SMS.
Satellite Radio Tuner Control (Optional)

Basic Operation

Selecting Satellite Radio source
Pressing the [SRC] button repeatedly switches source.
Select the “SIRIUS”, or “XM” display.

• You need to register to the service provider to receive the service by Satellite Radio. Consult the service provider if “CALL … TO SUBSCRIBE” appears.
• The radio may take a little time to start receiving after you select the Satellite Radio source.
• If the signal reception fails, “Acquiring Signal”/ “No Signal” appears.

Selecting the channel
Press the [◄◄] or [►►] button.

Selecting the Preset Band
1. Enter Menu List mode
Press the [MENU] button.
2. Turn the [VOL] knob and press it when the desired item is displayed.
Select “SR1”, “SR2”, “SR3” or “SR4” (SIRIUS)
Select “XM1”, “XM2”, “XM3” or “XM4” (XM)

Satellite Radio Setting
You can select following Satellite Radio Setting items.

1 Select Satellite Radio source
2 Enter Menu List mode
Press the [MENU] button.
3 Turn the [VOL] knob and press it when the desired item is displayed.
Select “Settings”.
4 Select the setting item to adjust
Turn the [VOL] knob and press it when the desired item is displayed.

<table>

<td>(Factory setting)</td>
</tr>
</tbody>
</table>

5 Make a setting
Press the [◄◄] or [►►] button.

6 Exit Menu List mode
Press the [MENU] button for at least 1 second, and then press it again briefly.

Category and Channel Search
Selecting the channel and category you want to receive.

1 Select Satellite Radio source
2 Enter Menu List mode
Press the [MENU] button.
3 Enter Category and Channel Search mode
Turn the [VOL] knob and press it when the desired item is displayed.
Select “Channel Search”.
4 Select the Category
Turn the [VOL] knob to select Category, and then press the [VOL] knob.
5 Select the Channel
Turn the [VOL] knob to select Channel, and then press the [VOL] knob.
**Cancelling Category and Channel Search mode**
Press the [MENU] button for at least 1 second, and then press it again briefly.

- You cannot Channel search until the category information is acquired.

---

**Preset Memory**
Putting the channel in the memory.

1. **Select the channel you wish to store in the preset memory**
2. **Enter Menu List mode**
   Press the [MENU] button.
3. **Enter Preset Memory mode**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “List & Memory”.
4. **Select the number to put in the memory**
   Turn the [VOL] knob and press [VOL] knob for at least 2 seconds when the desired item is displayed.
   Select preset number.

**Cancelling the Preset Memory mode**
Press the [MENU] button for at least 1 second, and then press it again briefly.

- Only the channel number is stored. Category information is not stored.
- Up to six channels can be registered for each preset band. Selecting “Mixed” for “Tuner Preset Type” allows you to register up to six stations including FM, AM, and another Satellite Radio Tuner regardless of the selected source. See “Tuner Preset Type” of <Initial Settings> (page 38).

---

**Preset Tuning**
Recalling the channels in the memory.

1. **Select Satellite Radio source**
2. **Enter Menu List mode**
   Press the [MENU] button.
3. **Select a desired station in the memory**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “List & Memory” ➔ Preset number.

**Channel Scan**
Every receivable Channel is checked for 10 seconds.

1. **Select Satellite Radio source**
2. **Enter Menu List mode**
   Press the [MENU] button.
3. **Enter Channel Scan**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “Channel Scan”.
4. **Start Channel Scan**
   Turn the [VOL] knob and press it when the desired item is displayed.
   Select “YES”.
5. **Release it when the channel you want to listen to is received**
   Press the [VOL] knob.

**Function of remote control**

**Direct Access Tuning**
Entering the channel and tuning.

1. **Select Satellite Radio source**
2. **Enter Direct Access Tuning mode**
   Press the [DIRECT] button on the remote control.
   “– – – –” is displayed.
3. **Enter the channel**
   Press the number buttons.
4. **Tune in to the entered channel**
   Press the [◄◄] or [►►] button.

**Cancelling Direct Access Tuning**
Press the [DIRECT] button on the remote control.

- If you make no button operation for 10 seconds, the Direct Access Tuning mode is automatically canceled.
- If you cannot receive any signal in the input Channel due to bad conditions on radio wave or other such problems, “Acquiring Signal”/ “No Signal” appears.
Basic Operations of remote control

General control
- Volume control: [VOL]
- Source select: [SRC]
- Volume reduce: [ATT]
  When the button is pressed again, the volume returns to the previous level.
- Return to previous item: [▲/▼]
- Exit from mode: [EXIT]
- Selection of item: [▲]/[▼]
- Determination: [ENT]
- Enter Audio Control mode: [AUD]

In HD Radio source
- Band select: [FM]/[AM]
- Station select: [◄◄]/[►►]
Example:

<table>
<thead>
<tr>
<th>Desired preset number</th>
<th>Press button</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>[1], [ENT]</td>
</tr>
<tr>
<td>6</td>
<td>[6], [ENT]</td>
</tr>
<tr>
<td>10</td>
<td>[1], [0], [ENT]</td>
</tr>
<tr>
<td>18</td>
<td>[1], [8], [ENT]</td>
</tr>
</tbody>
</table>

In USB/Music CD/Audio file source
- Music select: [◄◄]/[►►]
- Fast Forwards or Fast Backwards: [◄◄]/[►►] (Hold down the button)
- Folder select: [FM]/[AM]
- Pause/Play: [ENT]
- Enter Menu List mode: [▲]/[▼]
- Return to previous folder: [◄]

In iPod source
- Enter Menu List mode: [▲]/[▼]
- Movement between items during Music search mode: [▲]/[▼]
- Return to previous item: [◄]
- Music select: [◄◄]/[►►]
- Fast Forwards or Fast Backwards: [◄◄]/[►►] (Hold down the button)
- Pause/Play: [ENT]

In Pandora source
- Music select: [►►]
- Pause/Play: [ENT]

In Satellite Radio tuner source
- Preset band select: [FM]
- Channel select: [◄◄]/[►►]
**Preparing the remote control unit**

Pull the battery sheet out from the remote control unit to the direction of the arrow.

**Changing the battery of the remote control unit**

Use a commercially available button battery (CR2025). Insert the battery with the + and – poles aligned properly, following the illustration inside the case.

---

**Hands-free phone control**

**Making a call**
- Enter Bluetooth mode: [ mười lăm]
- Select a dialing method: [▲]/[▼] → [ENT]
- Number dial input:
  - Input a digit: [0] – [9]
  - Input “+”: [▶️]
  - Input “#”: [FM]
  - Input “*”: [AM]
  - Clear the entered phone number: [▶️]
- Make a call: [DIRECT]

**Receiving a call**
- Answer the call: [ mười lăm]
- Switch between the private talk mode and the hands-free talk mode: [ENT]

**Call waiting**
- Answer Another Incoming Call with the Current Call Suspended: [ mười lăm]
- Answer another Incoming Call after Terminating the Current Call: [SRC]
- Continue the Current Call: [1]

**During a call**
- End the call: [SRC]

---

⚠️ **CAUTION**

- Do not set the remote control in hot places such as on the dashboard.
- Lithium battery. Danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type.
- The battery pack or batteries shall not be exposed to excessive heat such sunshine, fire or the like.
- Keep battery out of reach of children and in original package until ready to use. Dispose of used batteries promptly. If swallowed contact physician immediately.
Appendix

About Audio file
- **Playable Audio file**
  AAC-LC (.m4a), MP3 (.mp3), WMA (.wma)
- **Playable disc media**
  CD-R/RW/ROM
- **Playable disc file format**
  ISO 9660 Level 1/2, Joliet, Romeo, Long file name.
- **Playable USB device**
  USB mass storage class
- **Playable USB device file system**
  FAT16, FAT32

Although the audio files are complied with the standards listed above, the play maybe impossible depending on the types or conditions of media or device.

- **Playing order of the Audio file**
  In the example of folder/file tree shown below, the files are played in the order from ① to ⑩.

```
CD (1)
  1  Folder
  2  Audio file
    3 ①
    4 ②
    5 ③
    6 ④
    7 ⑤
    8
    9
   10
```

An online manual about audio files is put on the site, www.kenwood.com/cs/ce/audiofile/. On this online manual, detailed information and notes which are not written in this manual are provided. Make sure to read through the online manual as well.

- In this manual, the word “USB device” is used for flash memories and digital audio players which have USB terminals.

---

**iPod/iPhone that can be connected to this unit**

Made for
- iPod touch (4th generation)
- iPod touch (2nd generation)
- iPod classic
- iPod nano (6th generation)
- iPod nano (5th generation)
- iPod nano (4th generation)
- iPod nano (3rd generation)
- iPod nano (2nd generation)
- iPod nano (1st generation)
- iPhone 4
- iPhone 3GS
- iPhone

(As of January 2011)

- Latest compatible list of iPod/iPhone.
  For details, see: www.kenwood.com/cs/ce/ipod/

- Type of control available varies depending on the type of connected iPod. See www.kenwood.com/cs/ce/ipod/ for further details.

- The word “iPod” appearing in this manual indicates the iPod or the iPhone connected with the iPod connection cable* (optional accessory).
  * Not supported model KCA-iP500.

Refer to the web site for connectable iPod and iPod connection cable.

http://www.kenwood.com/cs/ce/ipod/

- If you start playback after connecting the iPod, the music that has been played by the iPod is played first.
In this case, “RESUMING” is displayed without displaying a folder name, etc. Changing the browse item will display a correct title, etc.
- You cannot operate iPod if “KENWOOD” or “✓” displayed on iPod.
About PANDORA® internet radio
The requirements for listening to PANDORA® internet radio are as follows:
• Use an Apple iPhone or iPod touch running under iOS3 or later.
• Install the latest version of the PANDORA® application on your iPhone. (Search for “PANDORA” in the Apple iTunes App Store to find and install the most current version.)
• Create an account with PANDORA®. (If you are not already a registered user, an account can be established at www.pandora.com.)
• Internet connection by 3G, EDGE, or WiFi.
• iPhone connected to this unit with a KCA-IP102.

• The Pandora service is available only in the U.S.
• Because PANDORA® internet radio is a third-party service, the specifications are subject to change without prior notice. Accordingly, compatibility may be impaired or some or all of the services may become unavailable.
• Some PANDORA® functionality cannot be operated from this unit.
• For issues using the PANDORA® application, please contact Pandora at pandora-support@pandora.com

About USB device
• When the USB device is connected to this unit, it can be charged up provided that this unit is powered.
• Install the USB device in the place where it will not prevent you from driving your vehicle properly.
• You cannot connect a USB device via a USB hub and Multi Card Reader.
• Take backups of the audio files used with this unit. The files can be erased depending on the operating conditions of the USB device. We shall have no compensation for any damage arising out of erasure of the stored data.
• No USB device comes with this unit. You need to purchase a commercially available USB device.
• When connecting the USB device, usage of the CA-U1EX (option) is recommended. (However, maximum supply current of CA-U1EX is 500mA.)
• Normal playback is not guaranteed when a cable other than the USB compatible cable is used. Connecting a cable whose total length is longer than 4 m can result in abnormal playback.

About “KENWOOD Music Editor”
• This unit supports the PC application “KENWOOD Music Editor Light ver1.1” or later.
• When you use the audio file with database information added by the “KENWOOD Music Editor Light ver1.1”, you can search a file by title, album or artist name using the <File Search> (page 16).
• In the Instruction manual, the term “Music Editor media” is used to mean the device that contains audio files with database information added with KENWOOD Music Editor.
• “KENWOOD Music Editor Light ver1.1” is available from the following web site: www.kenwood.com/cs/ce/
• For further information on “KENWOOD Music Editor Light ver1.1”, refer to the site above or the application help.

About the Cell-Phone
This unit conforms to the following Bluetooth specifications:

<table>
<thead>
<tr>
<th>Version</th>
<th>Bluetooth Standard Ver. 2.0</th>
</tr>
</thead>
<tbody>
<tr>
<td>Profile</td>
<td>HFP (Hands Free Profile)</td>
</tr>
<tr>
<td></td>
<td>OPP (Object Push Profile)</td>
</tr>
<tr>
<td></td>
<td>PBAP (Phone Book Access Profile)</td>
</tr>
<tr>
<td></td>
<td>SYNC (Synchronization Profile)</td>
</tr>
</tbody>
</table>

For the cell-phones verified for compatibility, access the following URL:
http://www.kenwood.com/cs/ce/bt/

• The units supporting the Bluetooth function have been certified for conformity with the Bluetooth Standard following the procedure prescribed by Bluetooth SIG. However, it may be impossible for such units to communicate with your cell-phone depending on its type.
• HFP is a profile used to make a hands-free call.
• OPP is a profile used to transfer data such as a phone book between units.

About Satellite Radio tuner (Optional)
This unit supports Satellite Radio tuners which are released by SIRIUS and XM. Refer to the instruction manual of Satellite radio tuner.

CAUTION
Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.
In compliance with Federal Regulations, following are reproductions of labels on or inside the product relating to laser product safety.

KENWOOD CORP. CERTIFIES THIS EQUIPMENT CONFORMS TO DHHS REGULATIONS NO.21 CFR 1040.10, CHAPTER 1, SUBCHAPTER J.

Location : Top Panel

FCC WARNING
This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

FCC NOTE
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to radio communications, if it is not installed and used in accordance with the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

IC (Industry Canada) Notice
Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.
The term “IC: ” before the certification/registration number only signifies that the Industry Canada technical specification were met.

CALIFORNIA, USA
This product contains a CR Coin Cell Lithium Battery which contains Perchlorate Material – special handling may apply.
See www.dtsc.ca.gov/hazardouswaste/perchlorate

Accessories/ Installation Procedure

Accessories

1. ..........1
2. ..........2
3. ..........4
4. ..........4
5. 3 m (9.5 ft) ..........1

Installation Procedure

1. To prevent a short circuit, remove the key from the ignition and disconnect the battery.
2. Make the proper input and output wire connections for each unit.
3. Connect the speaker wires of the wiring harness.
4. Connect the wiring harness wires in the following order: ground, battery, ignition.
5. Connect the wiring harness connector to the unit.
6. Install the unit in your car.
7. Reconnect the battery.
8. Press the reset button.

WARNING

If you connect the ignition wire (red) and the battery wire (yellow) to the car chassis (ground), you may cause a short circuit, that in turn may start a fire. Always connect those wires to the power source running through the fuse box.

• Mounting and wiring this product requires skills and experience. For safety’s sake, leave the mounting and wiring work to professionals.
• Make sure to ground the unit to a negative 12V DC power supply.
• Do not install the unit in a spot exposed to direct sunlight or excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.
• Do not use your own screws. Use only the screws provided. If you use the wrong screws, you could damage the unit.
• If the power is not turned ON ("Protect" is displayed), the speaker wire may have a short-circuit or touched the chassis of the vehicle and the protection function may have been activated. Therefore, the speaker wire should be checked.
• If your car’s ignition does not have an ACC position, connect the ignition wires to a power source that can be turned on and off with the ignition key. If you connect the ignition wire to a power source with a constant voltage supply, as with battery wires, the battery may die.
• If the console has a lid, make sure to install the unit so that the faceplate will not hit the lid when closing and opening.
• If the fuse blows, first make sure the wires aren’t touching to cause a short circuit, then replace the old fuse with one with the same rating.
• Insulate unconnected wires with vinyl tape or other similar material. To prevent a short circuit, do not remove the caps on the ends of the unconnected wires or the terminals.
• Connect the speaker wires correctly to the terminals to which they correspond. The unit may be damaged or fail to work if you share the ± wires or ground them to any metal part in the car.
• When only two speakers are being connected to the system, connect the connectors either to both the front output terminals or to both the rear output terminals (do not mix front and rear). For example, if you connect the + connector of the left speaker to a front output terminal, do not connect the ± connector to a rear output terminal.
• After the unit is installed, check whether the brake lamps, blinkers, wipers, etc. on the car are working properly.
• Mount the unit so that the mounting angle is 30° or less.
• Reception may drop if there are metal objects near the Bluetooth antenna.

For Good Reception

To assure good reception, note the following:
• Communicate with the cell-phone within the line-of-sight distance of 10 m (30 ft). The communication range becomes shorter depending on the surrounding environment. The communication range also becomes shorter when there is an obstacle between this unit and the cell-phone. The above maximum communication range (10 m) is not always assured.
• A broadcast station or walkie-talkie located nearby can interfere with communication due to too strong signal.
Connecting Wires to Terminals

- USB connector (0.8 m (2.7 ft))
- FM/AM antenna input
- Front output
- Rear output
- Sub Woofer output
- AUX input (Stereo)
- White/Black
- To front left speaker
- Gray
- To front right speaker
- Gray/Black
- To rear left speaker
- Green
- Green/Black
- Purple
- Purple/Black
- If no connections are made, do not let the wire come out from the tab.
- Blue/White (Power control wire)
- Blue (Antenna control wire)
- Brown (Mute control wire)
- Orange / White (Dimmer control wire)
- Light Blue/Yellow (Steering remote control)
- Red (Ignition wire)
- Yellow (Battery wire)
- Black (Ground wire) (To car chassis)

- When using the optional power amplifier, connect to its power control terminal.
- Depending on what antenna you are using, connect either to the control terminal of the motor antenna, or to the power terminal for the booster amplifier of the film-type or short pole type antenna.
- To connect the Kenwood navigation system, consult your navigation manual.
- To use the steering wheel remote control feature, you need to an exclusive remote adapter (not supplied) matches your car is required.
Installation/Removing the Unit

non-Japanese cars

Bend the tabs of the mounting sleeve with a screwdriver or similar utensil and attach it in place.

• Make sure that the unit is installed securely in place. If the unit is unstable, it may malfunction (for example, the sound may skip).

Japanese cars

1 Refer to the section <Removing the hard rubber frame> and then remove the hard rubber frame.
2 Align the holes in the unit (two locations on each side) with the vehicle mounting bracket and secure the unit with the accessory screws.

Removing the hard rubber frame

1 Engage the catch pins on the removal tool and remove the two locks on the upper level. Upper the frame and pull it forward as shown in the figure.
2 When the upper level is removed, remove the lower two locations.

• The frame can be removed from the bottom side in the same manner.

Removing the Unit

1 Refer to the section <Removing the hard rubber frame> and then remove the hard rubber frame.
2 Detach the faceplate.
3 Insert the two removal tools deeply into the slots on each side, as shown.
4 Lower the removal tool toward the bottom, and pull out the unit halfway while pressing towards the inside.

• Be careful to avoid injury from the catch pins on the removal tool.
5 Pull the unit all the way out with your hands, being careful not to drop it.
Installation/Removing the Unit

Installation the Microphone Unit

1. Check the installation position of the microphone (accessory 5).
2. Remove oil and other dirt from the installation surface.
3. Install the microphone.
4. Wire the cable up to the unit with it secured at several positions using tape or the like.

- Install the microphone as far as possible from the cellphone.

Fix a cable with a commercial item of tape.

Peel the release coated paper of double-face adhesive tape to fix on the place shown above.

Adjust the direction of the microphone to the driver.
Troubleshooting Guide

Some functions of this unit may be disabled by some settings made on this unit.

⚠️ Cannot set up the subwoofer.
- No output from the subwoofer.
- Cannot set up the subwoofer position of Manual position setting.
  - The Dual zone function is enabled.  <Dual Zone System> (page 42)
  - In the speaker select option, None is selected for the subwoofer.  <Speaker Setting> (page 44)

⚠️ Cannot set up the equalizer.
- Cannot set up the Bass Boost.
- Cannot set up the Highway sound.
- Cannot set up the Supreme.
- Cannot set up the Position control.
  - The Dual zone function is enabled.  <Dual Zone System> (page 42)
  - The DSP function is disabled. DSP Set of <Audio Control> (page 40)
  - In the speaker select option, None is selected for the rear speakers.  <Speaker Setting> (page 44)

⚠️ Cannot set up Display.
  - <Demonstration mode Setting> (page 38) is not turned off.

⚠️ Cannot select the output destination of the subsource in the Dual zone.
- Cannot adjust the volume of the rear speakers.
  - The Dual zone function is disabled.  <Dual Zone System> (page 42)

⚠️ Cannot select the output destination of the subsource in the Dual zone.
- Cannot adjust the volume of the rear speakers.
  - The Dual zone function is disabled.  <Dual Zone System> (page 42)

⚠️ Cannot set up Display.
  - <Demonstration mode Setting> (page 38) is not turned off.

⚠️ The number of songs contained in “SONGS” category of this unit is different from that contained in “SONGS” category of iPod.
  - Podcast files are not counted in this unit as this unit does not support the playback of podcast files.

What might seem to be a malfunction in your unit may just be the result of slight misoperation or miswiring. Before calling service, first check the following table for possible problems.

General

❓ The operation check sound (beep sound) does not sound.
  ✓ The preout jack is being used.
  ❌ The Touch Sensor Tone cannot be output from the preout jack.

❓ The illumination flashes when the knob or button is operated.
  ✓ This is the key illumination effect.
  - You set this effect in “ILLUMI Effect” of <Display Setting> (page 30).

❓ The key illumination effect brought about in conjunction with the sound volume is small.
  ✓ The key illumination effect may be insufficient depending on the sound volume and sound quality.

Tuner source

❓ Radio reception is poor.
  ✓ The car antenna is not extended.
    - Pull the antenna out all the way.
  ❌ Antenna Control wire is not connected.
    - Connect the ANT.CONT wire.

Disc source

❓ The specified disc does not play, but another one plays instead.
  ✓ The specified CD is quite dirty.
    - Clean the CD, referring to the CD cleaning of the section on <Handling CDs> (page 5).
  ✓ The disc is loaded in a different slot from that specified.
    - Eject the disc magazine and check the number for the specified disc.
  ✓ The disc is severely scratched.
    - Try another disc instead.

Audio file source

❓ The sound skips when an Audio file is being played.
  ✓ The media is scratched or dirty.
    - Clean the media, referring to the CD cleaning of the section on <Handling CDs> (page 5).
  ✓ The recording condition is bad.
    - Record the media again or use another media.
Troubleshooting Guide

Hands-free

1. The hands-free talk volume is low.
   - The hands-free talk volume is set at a low level.
   - The hands-free talk volume can be adjusted independently. Adjust it during hands-free talk. "Mic Gain" and "NR Level" <Bluetooth Setting> (page 48).

2. No sound is heard from the rear speakers.
   - You are talking in the hand-free talk mode.
   - No sound is heard from the rear speakers in the hands-free talk mode.

3. No beep is heard at reception of an incoming call.
   - No beep is heard depending on the type of your cell-phone.
   - The "Call Beep" of <Bluetooth Setting> (page 48) is set ON.

4. Voice is not recognized.
   - The vehicle window is open.
   - If the surrounding noise is large, voice cannot be recognized properly. Close the vehicle windows to reduce noise.
   - Small voice.
   - If voice is too small, it cannot be recognized properly. Speak into the microphone a little more loudly and naturally.
   - The person uttering the voice tag is not the one who registered the it.
   - Only the voice of the person who registered the voice tag can be recognized.

The messages shown below display your systems condition.

TOC Error:
- No disc has been loaded in the disc magazine.
- The CD is quite dirty. The CD is upside-down. The CD is scratched a lot.

ERROR 05:
The disc is unreadable.

ERROR 77/Mecha Error:
The unit is malfunctioning for some reason.
- Press the reset button on the unit. If the "ERROR 77"/"Mecha Error" code does not disappear, consult your nearest service center.

ERROR 99:
Something is wrong with the disc magazine. Or the unit is malfunctioning for some reason.
- Check the disc magazine. And then press the reset button on the unit. If the "ERROR 99" code does not disappear, consult your nearest service center.

CD-IN (Blink):
The CD player section is not operating properly.
- Reinsert the CD. If the CD cannot be ejected or the display continues to flash even when the CD has been properly reinserted, please switch off the power and consult your nearest service center.

Protect (Blink):
The speaker wire has a short-circuit or touches the chassis of the vehicle, and then the protection function is activated.
- Wire or insulate the speaker cable properly and press the reset button. If the "Protect" code does not disappear, consult your nearest service center.

Unsupported File:
An Audio file is played with a format that this unit can’t support.

Copy Protection:
A copy-protected file is played.

Read Error:
The file system of the connected USB device is broken.
- Copy the files and folders for the USB device again. If the error message is still displayed, initialize the USB device or use other USB devices.

No Device:
The USB device is selected as a source although no USB device is connected.
- Change the source to any source other than USB. Connect an USB device, and change the source to USB again.

No Disc:
Insert a playable disc into the loading slot.

N/A Device:
- An unsupported USB device is connected.
- Connection to the iPod has failed.
- Check that the connected iPod is an iPod that is supported. See <iPod/iPhone that can be connected to this unit> (page 60) for information on supported iPods.
- Disconnect the USB device or the iPod, and reconnect it.

No Music Data/Error 15:
- The connected USB device contains no playable audio file.
- Media was played that does not have data recorded that the unit can play.

USB ERROR:
Some trouble may have occurred to the connected USB device.
- Remove the USB device, then cycle the power switch to ON. If the same display is repeated, use another USB device.

iPod Error:
Connection to the iPod has failed.
- Remove the USB device and then reconnect it.
- Reset the iPod/iPhone.
No Access: The procedure preset with mixed preset memory function cannot be available. The preset content may not be recalled depending on the selected band or source.

**SIRIUS/ XM/ HD Radio Reception**

Memory Full: The TAG Memory of HD Radio receiver is full.

iPod Memory: The iPod Memory is full.

No Tag Function: iPod which does not support the tag Memory is connected.

Tag Error: The unit is unable to complete transferring the tagged information to the iPod.

N/A Channels: No receivable channel and category.

**Bluetooth**

No Number:  • The calling party does not notify a caller ID.  • There is no phone number data.

No Data:  • There is no outgoing call list.  • There is no incoming call list.  • There is no missed call list.  • There is no phone book list.

No Entry: The cell-phone has not been registered (pairing).

HF Disconnect: The unit cannot communicate with the cell-phone.

HF Error 07: The memory cannot be accessed. 弢 Turn off the power and on again. If this message still appears, press the reset button on the control unit.

HF Error 68: The unit cannot communicate with the cell-phone. 弢 Turn off the power and on again. If this message still appears, press the reset button on the control unit.

Un Known: The Bluetooth device cannot be detected.

Device Full: 5 Bluetooth device have already been registered. No more Bluetooth device cannot be registered.

PIN Code NG: The PIN code is wrong.

Connect NG: The unit cannot be connected to the device.

Pairing Failed: Pairing error.

Err No Matching: The voice tag is wrong. Voice cannot be recognized because of an unregistered voice tag, etc.

Too Soft: Voice is too small and cannot be recognized.

Too Loud: Voice is too large to be recognized.

Too Long: The word or utterance is too long to be recognized.

No Phonebook: Data is not contained in the phone book.

No Message: No short message in In Box.

No Record: The voice tag is not registered in the phone book.

Memory Full: The number of voice tags reaches the maximum number to be registered in the phone book.

No Voice: No call.

**Pandora**

Pandora Error 01: Registration in Bookmark has failed.

Pandora Error 02: Deletion of the station has failed.

Pandora Error 03: Registration of the station has failed.

Pandora Error 04: The number of registerable stations has been exceeded.

Pandora Error 05: Thumb up/down operation has failed.

Pandora Error 06: Search has failed.

No Station: No station is found.

Not available: The station does not have an available song.

No skips remaining: The skip count limit has been exceeded.

Check Device: Check the Pandora application of the iPhone.
