BEFORE USE

IMPORTANT
To ensure proper use, please read through this manual before using this product. It is especially important that you read and observe WARNINGS and CAUTIONS in this manual. Please keep the manual in a safe and accessible place for future reference.

WARNING: (To prevent accidents and damage)
• DO NOT install any unit or wire any cable in a location where;
  – it may obstruct the steering wheel and gearshift lever operations.
  – it may obstruct the operation of safety devices such as air bags.
  – it may obstruct visibility.
• DO NOT operate the unit while driving.
  If you need to operate the unit while driving, be sure to look around carefully.
• The driver must not watch the monitor while driving.

CAUTION
Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure. In compliance with Federal Regulations, the following are reproductions of labels on, or inside the product relating to laser product safety.

JVC KENWOOD Corporation
2967-3, ISHIKAWA-MACHI, HACHIOJI-SHI, TOKYO, JAPAN

THIS PRODUCT COMPLIES WITH DHHS RULES
21 CFR SUBCHAPTER J IN EFFECT AT DATE OF
MANUFACTURE.

Location : Top plate

How to read this manual:
• Illustrations of DDX6902S are mainly used for explanation. The displays and panels shown in this manual are examples used to provide clear explanations of the operations. For this reason, they may be different from the actual displays or panels.
• This manual mainly explains operations using the buttons on the monitor panel and touch panel. For operations using the remote controller (KNA-RCDV331: optional accessory), see the instructions supplied with the remote controller.
• [ ] indicates the various screens/menus/operations/settings that appear on the touch panel.
• [ ] indicates the buttons on the touch panel.
• Indication language: English indications are used for the purpose of explanation. You can select the indication language from the <Setup> menu. (Page 60)
• Updated information (the latest Instruction Manual, system updates, new functions, etc.) is available from <http://www.kenwood.com/cs/ce/>.
BEFORE USE

FCC WARNING
This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

FCC NOTE
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment may cause harmful interference to radio communications, if it is not installed and used in accordance with the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC (Industry Canada) Notice
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. The term “IC: “ before the certification/registration number only signifies that the Industry Canada technical specification were met.

CAUTION
This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines in Supplement C to OET65 and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person’s body (excluding extremities: hands, wrists, feet and ankles). Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Contains Transmitter Module
FCC ID : YZP-RBFAC21XX
Contains Transmitter Module
IC: 7414A-RBFAC21XX

Cautions on the monitor:
- The monitor built into this unit has been produced with high precision, but it may have some ineffective dots. This is inevitable and is not considered defective.
- Do not expose the monitor to direct sunlight.
- Do not operate the touch panel using a ball-point pen or similar tool with a sharp tip. Touch the buttons on the touch panel with your finger directly (if you are wearing a glove, take it off).
- When the temperature is very cold or very hot...
  – Chemical changes occur inside, causing malfunction.
  – Pictures may not appear clearly or may move slowly. Pictures may not be synchronized with the sound or picture quality may decline in such environments.

For safety...
- Do not raise the volume level too much, as this will make driving dangerous by blocking outside sounds, and may cause hearing loss.
- Stop the car before performing any complicated operations.

Temperature inside the car...
If you have parked the car for a long time in hot or cold weather, wait until the temperature in the car becomes normal before operating the unit.

How to reset your unit
If the unit fails to operate properly, press the reset button.
INITIAL SETTINGS

Initial setup
When you power on the unit for the first time or reset the unit, the initial setting screen appears.
• You can also change the settings on the <Setup> screen. (Page 58)

1

2 Finish the procedure.

Activating the security function
You can activate the security function to protect your receiver system against theft.

1 Display the <System> setting screen.
On the <TOP MENU> screen:

1. Press [▼] repeatedly to change the page on the <System> menu screen.

2 The security indicator on the monitor panel flashes when the vehicle ignition is off.

To deactivate the security function: Select [OFF] for <SI>.

<Demonstration>
Activate or deactivate the display demonstration. (Page 59)

<Language>
Select the text language used for on-screen information. (Page 60)

• Set <GUI Language> to display the operation buttons and menu items in the selected language ([Local]) or English ([English]).

<R-CAM Interrupt>
Select [ON] when connecting the rear view camera. (Page 59)

<Panel Color>
Select the color of the buttons on the monitor panel. (Page 55)
INITIAL SETTINGS

Clock settings

1 Display the <TOP MENU> screen. On the source control screen:

2 Display the <Setup> screen.

3 Display the <Clock> screen.

4 Set date (1), time (2), then confirm the setting (3).
   - Adjust the date/time by pressing [▲]/[▼].

5 Finish the procedure.

**Caution on the volume setting:**
Digital devices produce very little noise compared with other sources. Lower the volume before playing these digital sources to avoid damaging the speakers by sudden increase of the output level.

### Common operations

- **Turning on the power**
- **Turning off the power**
BASICS

Adjusting the volume

To adjust the volume

You can adjust the volume for the following four situations.
• While listening to a source (0 to 35)
• During a call (0 to 35)
• During voice guidance (0 to 35)
• While receiving Traffic Information (0 to 35)

Turn to the right to increase, and turn to the left to decrease.

To attenuate the sound

The ATT indicator lights up.

To cancel the attenuation: Press the same button again.

Turning off the screen

(olf)

• This operation works only when <ATT Key Long Press> is set to [V-OFF]. (Page 60)

To turn on the screen: Press and hold the volume knob on the monitor panel, or touch the display.

Putting the unit in standby

1 Display all <TOP MENU> items.
   On the <TOP MENU> screen:

2

Common screen operations

Common screen descriptions

You can display other screens any time to change the source, show the information, or change the settings, etc.

Source control screen

Performs source playback operations.
• The operation buttons vary depending on the selected source.

Common operation buttons:
1 Displays other operation buttons.
2 Switches between the normal source control screen and easy control screen. (Page 8)
3 Displays the <TOP MENU> screen. (Page 8)
   • Pressing MENU on the monitor panel also displays the <TOP MENU> screen.
4 Displays/hides short-cut buttons. (Page 9)

Continued on the next page...
**BASICS**

**Easy control screen**
Pressing [ ], switches between the normal source control screen and easy control screen. The easy control screen allows you to control the source easily with simple buttons.
- The displayed buttons vary depending on the selected source.

![Easy control screen](image)

**<TOP MENU> screen**
Displays the source control screen and settings screen.
- You can arrange the items to display on the <TOP MENU> screen. (Page 56)

![<TOP MENU> screen](image)

**Common operating buttons:**
1. Changes the playback source. (Page 9)
2. Displays all playback sources and items. (Page 9)
3. Displays the <Setup> screen. (See the right column.)

---

**<Setup> screen**
Changes the detailed settings. (Page 58)

- [TEL] Displays the phone control screen. (Page 46)
- [OEM Features] Switches to the source connected via ADS adapter. (Page 41)
- [AV-IN1][AV-IN2] Switches to an external component connected to the AV-IN1 or iPod/AV-IN2 input terminal. (Page 39)

* When iPhone compatible with CarPlay is connected and <CarPlay Connection> is set to [ON] (Page 20), [Apple CarPlay] is displayed.

### Using short-cut buttons

While displaying the source control screen or the <Setup> screen, you can use the short-cut buttons to go to the items on the <TOP MENU> screen indicated below.

To display the short-cut buttons

On the source control screen:

To hide the short-cut buttons: Press [●].
DISCS

Playing a disc
• If a disc does not have a disc menu, all tracks on it will be played repeatedly until you change the source or eject the disc.
• For playable disc types/file types, see page 68.

Deleting a disc
Insert a disc with the label side facing up.

The source changes to “DISC” and playback starts.
• The IN indicator lights up while a disc is inserted.

• If “!” appears on the screen, the unit cannot accept the operation you have tried to do.
  – In some cases, without showing “!” operations will not be accepted.
• When playing back a multi-channel encoded disc, the multi-channel signals are downmixed to stereo.

Ejecting a disc
• When removing a disc, pull it horizontally.
• You can eject a disc when playing another AV source.
• If the ejected disc is not removed within 60 seconds, the disc is automatically inserted again into the loading slot to protect it from dust.

Playback operations
When the operation buttons are not displayed on the screen, touch the area shown on the illustration.
• To change settings for video playback, see page 53.

Indications and buttons on the source control screen
For video playback

Playback information
• The information displayed on the screen differs depending on the type of disc/file being played back.
1 Media type
2 Current playback item information (title no./chapter no./folder no./file no./track no.)
3 Playing time
4 Playback mode (Page 13)

6 7 8
Selecting a folder/track on the list

1. Select the folder (1), then the item in the selected folder (2).
   - Repeat the procedure until you select the desired track.

2. You can change the page to display more items by pressing [▲]/[▼].
   - Press [▲] to open the folder containing the current track.
   - Press [▼] to return to the root folder.
   - Press [▲] to return to the upper layer.

Video menu operations

You can display the video menu screen during video playback.
- The operation buttons disappear when the screen is touched or when no operation is done for about 5 seconds.

For video playback except VCD

- Available buttons on the screen and operations differ depending on the type of disc/file being played back.

Video menu operations

[ZOOM] Displays the picture size selection screen. (Page 54)
[Aspect] Selects the aspect ratio. (Page 54)
[PictureAdjust] Displays the picture adjustment screen. (Page 53)
[Audio] Selects the audio type (or channel for DVD-VR).
[Subtitle] Selects the subtitle type.
[Angle] Selects the view angle.
[MENU] Displays the disc menu.
[T MENU] Displays the disc menu (DVD).
[Highlight] Switches to the direct disc menu mode. Touch the target item to select.
- To restore the screen, press AV on the monitor panel.

CUR Displays the menu/scene selection screen.
- [▲] [▼] [◄] [►]: Selects an item.
- [Enter]: Confirms the selection.
- [Return]: Returns to the previous screen.
**DISCS**

</table>

* You can change these settings only while playback is stopped.

### Setting the parental lock

The parental lock cannot be set during DVD playback.

1. Display the <Parental Pass> screen.
   On the <DISC Mode> screen:
   - Press [▼] repeatedly to change the page on the <DISC Mode> screen.

2. Enter the 4-digit parental pass code (1), and press [Enter] (2).
   - To clear the entry, press [Clear].
   - To cancel setting the code, press [Cancel].

3. Adjust the parental level (<Level 1> to <Level 8>).

   To deactivate the parental lock: Select [OFF] for <Parental Level>. 
USB

Connecting a USB device
You can connect a USB mass storage class device such as a USB memory, Digital Audio Player etc. to the unit.
• For details about connecting USB devices, see page 64.
• You cannot connect a computer or portable HDD to the USB input terminal.
• For playable file types and notes on using USB devices, see page 69.

When a USB device is connected...
The source changes to “USB” and playback starts.
• All tracks in the USB device will be played repeatedly until you change the source.
To disconnect the USB device safely:
Press [►], then disconnect the USB device after “No Device” appears.

Indications and buttons on the source control screen

- Track/file information
  - Pressing [◄] scrolls the text if not all of the text is shown.
- Current playback item information (folder no./file no.)
- Playback status
- Playing time
- Jacket picture (Shown while playing if the file has tag data that includes the jacket picture)
- Playback mode (See the right column.)
- File type

Operation buttons
• Available buttons on the screen and operations differ depending on the type of file being played back.

[◄] [►] Selects a track.

Reverse/forward search.
[►] Starts/pauses playback.

Displays other operation buttons.
• Disabled when there are no other buttons.

Changes the picture display time setting on the <USB Mode> screen.  
   (Page 16)

Selects a folder.

Selects repeat playback mode.*
• REP: Repeats the current track/file.
• FO-REP: Repeats all tracks/files in the current folder or specified category.

Activates random playback mode.*
• RDM:
  – When selecting the track/file from the folder, randomly plays all tracks/files of the current folder, then the tracks/files of the next folder.
  – When selecting the track/file from the category, randomly plays all tracks/files of the specified category.

Disconnects the USB device safely.

Displays the <TOP MENU> screen.

*1 To cancel random or repeat mode, press the button repeatedly until the indicator disappears.
*2 You cannot activate the repeat mode and the random mode at the same time.

Playback information
• The information displayed on the screen differs depending on the type of file being played back.

1 Track/file information
  - Pressing [◄] scrolls the text if not all of the text is shown.
2 Current playback item information (folder no./file no.)
3 Playback status
4 Playing time
5 Jacket picture (Shown while playing if the file has tag data that includes the jacket picture)
6 Playback mode (See the right column.)
7 File type
**USB**

Set the interval between slides during slide-shows of the picture files.

**Setting <Picture Display Time>**
Set the interval between slides during slide-shows of the picture files.

**Selecting a track in a list**

1. Select the list.
2. Select the track.
3. You can change the page to display more items by pressing [▲]/[▼].
   - Press [▲] to return to the root folder.
   - Press [▼] to return to the upper layer.
   - Press [②] to open the folder containing the current track.
   - If you want to play all tracks in the folder, press [①] on the right of the desired folder.
   - On the <Category List>/<Folder List>, you can switch the file type to list: Press [③] to list audio files, [④] to list video files, or [⑤] to list still picture files.
   - On the <Category List>/<Link Search>, to list the items in alphabetical order, press [A-Z], then select the first character.

From <Category List>:
Select the category (①), then the item in the selected category (②).

From <Folder List>:
Select the folder (①), then the item in the selected folder (②).

From <Link Search>:
Select the tag type (①) to display a list of content that contains the same tag as the track/file currently being played, then the item (②).
iPod/iPhone

**Preparation**

**Connecting iPod/iPhone**

- For details about connecting iPod/iPhone, see page 64.
- For playable iPod/iPhone types, see page 69.

Connect your iPod/iPhone according to your purpose or the type of iPod/iPhone.

**Wired connection**

- **To listen to music:** Use USB Audio cable for iPod/iPhone.
  - For Lightning connector models: KCA-iP103 (optional accessory)
  - For 30-pin connector models: KCA-iP102 (optional accessory)
- **To watch video and listen to music (only for 30-pin connector models):** Use USB Audio and Video cable for iPod/iPhone—KCA-iP202 (optional accessory).
  - For Lightning connector models: You cannot watch the video with KCA-iP202.

**Bluetooth connection**

Pair the iPod/iPhone through Bluetooth. (Page 42)

- You cannot watch video with a Bluetooth connection.

---

**Selecting the iPod/iPhone device to play and connection method**

When connecting the iPod/iPhone device for first time, the setup screen (for connection, etc.) appears. Follow the procedure on the setup screen to configure the settings.

1. Display the <iPod Settings> screen.
   - On the <TOP MENU> screen:
     - If [Enter] for <iPod Setup> cannot be selected, put the unit in standby. (Page 7)

2. If you do not need to change the settings, press [OK] to exit from the setup screen.

3. Select the connection method (1), then press [Next] (2).

   - **[USB + AV-IN]** Select this when the iPod/iPhone is connected using KCA-iP202 (optional accessory).
   - **[USB 1 Wire]** Select this when the iPod/iPhone is connected using KCA-iP102 (optional accessory) or KCA-iP103 (optional accessory).
   - **[Bluetooth]** Select this when the iPod/iPhone is connected via Bluetooth.
     - When selecting **[USB + AV-IN]** or **[USB 1 Wire]**, go to step 5.
     - * When <CarPlay Connection> is set to **[ON]** (Page 20), these settings cannot be selected.

Continued on the next page...
iPod/iPhone

4 When selecting <Bluetooth> as the connection method, the device selection screen appears. Search for the available iPod/iPhone devices (①), select the target device from the list (②), then press [Next].

• You can change the page to display more items by pressing [▲]/[▼].
• If the device is already listed, skip step ①.
• To stop searching, press [Cancel].

5 Confirm the settings.

Selecting preference settings for iPod/iPhone playback
When the source is “iPod”...

Video menu:

- Available categories differ depending on the type of your iPod/iPhone.
You can use an App of the connected iPod touch/iPhone/Android on this unit.

- You can use an App on the following sources:
  - When iPhone compatible with CarPlay is connected: “Apple CarPlay” (see below) or “APPS” (Page 21)
  - When a device other than above is connected: “APPS” (Page 21)

### Using Apps of iPhone—Apple CarPlay

#### About CarPlay

CarPlay is a smarter, safer way to use your iPhone in the car. CarPlay takes the things you want to do with iPhone while driving and displays them on the screen of the product. You can get directions, make calls, send and receive messages, and listen to the music from iPhone while driving. You can also use Siri voice control to make it easier to operate iPhone.

- For details about CarPlay, visit <https://ssl.apple.com/ios/carplay/>.

#### Compatible iPhone devices

You can use CarPlay with the following iPhone models.

- iPhone 5
- iPhone 5C
- iPhone 5S
- iPhone 6
- iPhone 6 Plus

### Preparation

To use the navigation function of the maps App, connect the GPS antenna. (Page 65)

1. Select the device to use and connection method on the <APP Setup> screen. (Page 50)
   - Select [iPod/iPhone] as the device type.
   - Select [USB 1 Wire] as the connection method.

3. Connect iPhone via USB input terminal. (Page 64)
   - When iPhone compatible with CarPlay is connected to the USB input terminal, the Bluetooth mobile phone currently connected is disconnected.
   - Unlock your iPhone.

4. Select “Apple CarPlay” as the source.
   - Press [▼] to change the page on the <TOP MENU> screen.

- (Apple CarPlay) is displayed only when a compatible iPhone is connected.
Operation buttons and available Apps on the home screen of CarPlay
You can use the Apps of the connected iPhone.
- The items displayed and the language used on the screen differ among the connected devices.

1 Application buttons
Starts the application.
2 [ ] button
- On the App screen: Displays the home screen of CarPlay. (Press)
- On the home screen of CarPlay: Activates Siri. (Hold) (See the right column.)
3 [Main Menu] button
Exits the CarPlay screen and displays the <Home> screen.

To exit the CarPlay screen: Press MENU on the monitor panel.

Using Siri
You can activate Siri while the CarPlay screen is displayed.

On the home screen of CarPlay:
1 Touch and hold [ ] to activate Siri.
2 Talk to Siri.
- You can also activate Siri by pressing and holding TEL on the monitor panel.
  - To deactivate, press TEL on the monitor panel.

Using an App—APPs
For Apps you can use on this unit, visit <http://www.kenwood.com/cs/ce/>.
- “APPs” is not available for iPod touch/iPhone Lightning connector models.

Preparation
1 Connect the iPod touch/iPhone/Android.
  - For Android: Connect the Android device via Bluetooth. (Page 42)
  - For iPod touch/iPhone: Connect iPod touch/iPhone with KCA-iP202 (Page 64).
2 Select the iPod touch/iPhone/Android device to use and connection method on the <APP Settings> screen. (Page 50)
  - When connecting the device for the first time, the setup screen (for connection, etc.) appears. Follow the procedure on the setup screen to configure the settings.
  - When iPhone compatible with CarPlay is connected (Page 20) to use “APPs”, set <CarPlay Connection> to [OFF]. (Page 60)
APPs

- **Playback operations**
  When the operation buttons are not displayed on the screen, touch the screen to show them.
  - To change settings for video playback, see page 53.

1. Start the App on your iPod/iPhone/Android.
2. Select "APPs" as the source.
   - Press [▶] to change the page on the <TOP MENU> screen.

- **Operation buttons on the source control screen**

  - [▶] Starts playback.
  - [■] Pauses playback.
  - [<◁][▶]> Selects an audio/video file.
  - [<◁][◁][Ш]> Reverse/forward search.
  - [▶][■] Starts/pauses playback.
  - [MENU] Displays the <TOP MENU> screen.

- You can operate some functions of the App on the touch panel.
- For some applications such as navigation applications, the operation buttons and information are not shown. You can perform the operations on the touch panel, such as scrolling the map.
  - If "禁止" appears on the screen, the unit cannot accept the touch operation you have tried to do.
- You can also play back the audio/video using iPod/iPhone/Android itself instead of the unit.

- **Switching to the App screen while listening to another source**

  - This operation works only when <AV Key Long Press> is set to [APPs]. (Page 60)

  **To return to the source control screen**: Press the same button again.
Pandora®

You can stream Pandora from iPod touch/iPhone, Android or BlackBerry devices.
- Install the latest version of the Pandora application on your iPod touch/iPhone/Android/BlackBerry.

**Preparation**

Connect the device, then start the Pandora application.

1. Connect the device.
   - **For Android/BlackBerry:** Pair the Android/BlackBerry device through Bluetooth.
     (Page 42)
   - **For iPod touch/iPhone:** Connect iPod touch/iPhone. (Page 17)

2. Select the device to use and connection method on the <APP Settings> screen.
   (Page 50)

3. Select “PANDORA” as the source.
   On the <TOP MENU> screen:

   The Pandora application is started.

**Playback operations**

You can operate Pandora using the remote controller (optional accessory). Only playing, pausing, and skipping are available.

**Indications and buttons on the source control screen**

**Playback information**
1. Picture data
2. Track information
   - Pressing [<] scrolls the text if not all of the text is shown.
3. Playback status
4. Playing time

**Operation buttons**

- Displays the easy control screen.
- Displays the list selection screen.
- Thumbs down to the current track and skips to the next track.
- Registers the current track as a favorite.
- Starts/pauses playback.
- Skips the current track.
  - Not available when the Pandora skip reaches its limit.
- Displays other operation buttons.
  - Disabled when there are no other buttons.
- Bookmarks the artist.
- Bookmarks the current track.
- Adds the current artist to the Station List.
- Adds the current track to the Station List.
- Displays the <TOP MENU> screen.
Pandora®

Selecting a station from the list

1 Display the list selection screen.

2 Select the list type.

- **<Station List>** Selects from the station names (Station List).
- **<Genre List>** Selects from the genre names (Genre List).

3 Select a station from the list.

On the Station List

- **[Shuffle]** Plays all the songs in the registered stations randomly.
- **[By Date]** Sorts the list in reverse chronological order.
- **[By Name]** Sorts the list in alphabetical order.

- You can change the page to display more items by pressing [▲]/[▼].
- The indicator appears on the left of the item when Shuffle is activated. (All songs on the registered stations are played randomly.)
- The indicator appears on the right of the item when the station is shared.

On the Genre List

Select a genre (1), then a station (2).

- You can change the page to display more items by pressing [▲]/[▼].
- The selected station is added to the Station List.

Requirements for Pandora®

**iPhone or iPod touch**

- Install the latest version of the Pandora application on your iPhone or iPod touch. (Search for “Pandora” in the Apple iTunes App Store to find and install the most recent version.)
- Connect iPod touch/iPhone to this unit with a cable or via Bluetooth.
  - When connecting with a cable: Use KCA-iP202, KCA-iP102 or KCA-iP103 (optional accessory).
  - When connecting via Bluetooth, the following profiles must be supported.
    - SPP (Serial Port Profile)
    - A2DP (Advanced Audio Distribution Profile)

**Android™**

- Visit Google Play™ and search for “Pandora” to install.
- Bluetooth must be built in and the following profiles must be supported.
  - SPP (Serial Port Profile)
  - A2DP (Advanced Audio Distribution Profile)

**BlackBerry®**

- Visit www.pandora.com from the built in browser to download the Pandora application.
- Bluetooth must be built in and the following profiles must be supported.
  - SPP (Serial Port Profile)
  - A2DP (Advanced Audio Distribution Profile)

**NOTE**

- Ensure you are logged in to your smartphone application. If you do not have a Pandora account, you can create one for free from your smartphone or at www.pandora.com.
- Pandora is only available in certain countries. Please visit http://www.pandora.com/legal for more information.
- Because Pandora is a third-party service, the specifications are subject to change without prior notice. Accordingly, compatibility may be impaired or some or all of the services may become unavailable.
- Some functions of Pandora cannot be operated from this unit.
- For issues using the application, contact Pandora at pandora-support@pandora.com
- Establish an Internet connection using LTE, 3G, EDGE, or WiFi.
iHeartRADIO

iHeartRADIO is a free, all-in-one digital radio service that lets you listen to your favorite Live Stations or create commercial-free, all-music Custom Stations featuring songs from the artists you select and similar music.

You can stream iHeartRADIO from iPod touch/iPhone or Android devices.
- Install the latest version of the iHeartRADIO application on your iPod touch/iPhone/Android.

Preparation

Connect the device, then start the iHeartRADIO application.

1 Connect the device.
   - For Android: Pair the Android device through Bluetooth. (Page 42)
   - For iPod touch/iPhone: Connect iPod touch/iPhone. (Page 17)

2 Select the device to use and connection method on the <APP Settings> screen. (Page 50)

3 Select “iHeartRADIO” as the source. On the <TOP MENU> screen:

Playback operations

You can operate iHeartRADIO using the remote controller (optional accessory). Only playing, pausing, and skipping are available.

SiriusXM® Satellite Radio

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy and entertainment.

Welcome to the world of satellite radio. A SiriusXM Vehicle Tuner and Subscription are required. For more information, visit www.siriusxm.com.

Activating your subscription

1 Check your Radio ID.
The SiriusXM Satellite Radio ID is required for activation and can be found by tuning to Channel 0 as well as on the label found on the SiriusXM Connect tuner and its packaging.
• The Radio ID does not include the letters I, O, S or F.

2 Activate the SiriusXM Connect Vehicle Tuner using one of the two methods below:
• For users in the U.S.A:
  – Online: Visit www.siriusxm.com/activatenow
  – Phone: Call SiriusXM Listener Care at 1-866-635-2349
• For users in Canada:
  – Online: Visit www.siriusxm.ca/activatexm
  – Phone: Call XM customer Care at 1-877-438-9677

3 When the following screen appears, press [Return].

  The channel selected in step 1 is stored.

- **Selecting a preset channel**

  1. Display the preset list. (See the left column.)
  2. Select the preset number for the channel you want.
SiriusXM® Satellite Radio

Selecting a channel

Selecting a channel on the list
You can obtain information on channels or select a category and then a channel.

1 Display the <List Type Select> screen.

2 Select the list type.

- <Preset List> Selects from the preset list.
  - To preset the channels, see page 33.
- <Channel List> Selects from the channel names.

3 Select a channel.

On the <Preset List> screen
Select a band (1), and then select a preset channel (2).

On the <Channel List> screen
Select a category (1), and then select a channel (2).

- You can change the page to display more items by pressing [▲]/[▼].
- To list all the channels, select [All Channels].
- Pressing the info change button above the list displays information in the following order: Channel Name, Artist Name, Song Title, Content Info.

Replay
You can pause, rewind and replay content from the currently tuned channel.
- The SiriusXM Connect Vehicle Tuner continually buffers up to 60 minutes of audio.
- If you change to another channel during playback, the Replay buffer content will be lost.

Indications on the source control screen

1 Playback status
   Shows the remaining capacity (gray) and the amount of buffered content (blue). If the Replay buffer is full, the entire bar becomes blue.
   - Updated every second.

2 Progress bar
   Shows you the point in the Replay buffer you are listening to.
   - Example: -5:00
     - You are listening to audio that is 5 minutes behind the current broadcast.
   - Updated every second.
SiriusXM® Satellite Radio

Replaying content

1 Display operations buttons for replay.

2

- To start/pause the playback, press [II].
- To skip the current track segment, press [◄]/[►].
  - Pressing [◄] within 2 seconds of the beginning of the current track/segment returns to the previous track.
  - Pressing [◄] after 2 seconds or more of the track has been replayed returns to the beginning of the current track/segment.
- To rewind/fast forward, press and hold [◄]/[►].
- To return to the live position, press [Live].

SmartFavorites

User stored channels (P1 to P6) are recognized as SmartFavorites channels. The SiriusXM Connect Vehicle Tuner automatically buffers their broadcast content in the background. When you select a SmartFavorite channel, you can rewind and replay up to 30 minutes of any of the missed news, talk, sports or music content.

- SmartFavorites is available only when you connect an SXV200 or later SiriusXM Connect Vehicle Tuner.
- If you change to another band, the buffered content is cleared and new channels in the current band will start buffering.

TuneStart™

When you select a preset channel, you can listen to the current song from the beginning.

Activating TuneStart™

1

2

To deactivate TuneStart: Select [OFF] for <TuneStart>.

TuneScan™

When you activate TuneScan™, you will hear 6 seconds of the songs, which have not been listened to, from each of the music channel presets on the current Band.

The unit starts scanning.

- To select the previous/next content, press [◄] or [►].
- To end scanning and continue listening to the current song/content, press [SCAN].
- To exit scanning, press and hold [SCAN].
SiriusXM® Satellite Radio

Receiving alerts for desired content — Content Alert
The unit informs you when receiving the content you are interested in such as music, information about a sports team or weather and traffic information.

Selecting content for the content alert
For artists/songs/sports teams

2. Select the category (1), then the item (2).
3. The checkmark appears besides the selected item.
   - To show the details of the item, press [<].
   - To delete the registered items, press and hold the item you want to delete (1). ([Hold] and a checkmark are shown beside the selected item.) Then, press [Hold] (2).

For traffic and weather information

2. Select the city for which you want to receive traffic and weather information.
   - Press [▼] repeatedly to change the page on the <SiriusXM Mode> screen.

Registering content alerts
For artists/songs

[Hold] Registers the artist of the current song.

[Hold] Registers the current song.

For sports teams

2. Select the league (1) and the team (2) then register the content alert (3).
3. Select the league (1) and the team (2) then register the content alert (3).

Selecting the content for the content alert
For artists/songs/sports teams

- Press [▼] repeatedly to change the page on the <SiriusXM Mode> screen.
- To delete all registered items, press [All Clear] for <Content Alerts Contents Set>.

For sports teams

2. Select the league (1) and the team (2) then register the content alert (3).

SiriusXM® Satellite Radio

Activating content alerts
For artists/songs/sports teams

1. Press [▼] repeatedly to change the page on the <SiriusXM Mode> screen.

2. To deactivate content alerts: Select [OFF] for <Content Alerts>.

For traffic and weather information

3. To deactivate the content alert: press [/functions] again.

Switching registered content
When receiving the contents registered for content alerts, an alert appears on the screen. Press [Jump], then select the item to jump on the <Content Alerts> screen.

4. To show the details of the item, press [<].

Setting reception restrictions

Setting the parental control

You can limit access to SiriusXM channels, such as those with mature content.

Setting/Changing the parental code
- The initial setting is “0000.”
- Changing the code does not change the <Parental Control>/<Parental Lock Channel Selection> settings.

1. Display the <Parental Code Check> screen.

2. Enter a four-digit code (①), and then confirm (②).
- To clear the entry, press [Clear].
- To cancel setting the code, press [Cancel].

3. Enter a new four-digit code (①), and then confirm (②).
- To clear the entry, press [Clear].
- To cancel setting the code, press [Cancel].

Activating/Deactivating the parental control
You can set the parental control feature to lock any SiriusXM channel(s) or automatically lock all channels classified as “mature” by SiriusXM®.

1. Enter the parental code to confirm your choice.

2. [OFF] Deactivates the parental mature and user lock.
   [Mature] Locks channels classified as “mature” only.
   [User] Locks only the selected channels.

3. Enter the parental code to confirm your choice.

Continued on the next page...
SiriusXM® Satellite Radio

Selecting the channels to lock—Parental Lock Channel

This parental control option allows you to pick the channels to be locked by the parental control feature.

- When <Parental Control> is set to [Mature] or [OFF], you cannot change the <Parental Lock Channel Selection> setting.

1. Enter the parental code.
2. Select a category (1), and then a channel (2).

- You can change the page to display more items by pressing [▲]/[▼].
- To list all the channels, select [All Channels].
- A check mark appears beside the selected channel.

Repeat this step if you want to set the lock on multiple channels.

To deactivate the parental lock for all locked channels: Select [All Clear] for <Parental Lock Channel Selection> on the <SiriusXM Mode> screen, then enter the parental code number.

- You can change the page to display more items by pressing [▲]/[▼].
- To list all the channels, select [All Channels].
- A check mark appears beside the selected channel.

Repeat this step if you want to skip multiple channels.

To clear the channel skipping for all skipped channels: Press and hold [All Clear] in <Skip Channel Selection> on the <SiriusXM Mode> screen.

- Press [▼] repeatedly to change the page on the <SiriusXM Mode> screen.

Resetting the SiriusXM Satellite Radio settings
You can reset the SiriusXM Satellite Radio settings you set up and restore the default settings.

2. Press [MENU] (Hold).

- Press [▼] repeatedly to change the page on the <SiriusXM Mode> screen.
OTHER EXTERNAL COMPONENTS

Using external audio/video players—AV-IN

When the operation buttons are not displayed on the screen, touch the area shown on the illustration.

• To change settings for video playback, see page 53.

You can connect an external component to the AV-IN1 and iPod/AV-IN2 input terminals. (Page 64)

Starting playback

1. Connect an external component to the AV-IN1 or iPod/AV-IN2 input terminal. (Page 64)
2. Select “AV-IN1” or “AV-IN2” as the source.
   • Press [▼] to change the page on the <TOP MENU> screen.
3. Turn on the connected component and start playing the source.

Using a rear view camera

• To connect a rear view camera, see page 64.
• To use a rear view camera, a REVERSE lead connection is required. (Pages 63)

Activating the rear view camera

1. Display the <Input> setting screen. On the <TOP MENU> screen:
2. Select [OFF] for <R-CAM Interrupt>.

To deactivate: Select [OFF] for <R-CAM Interrupt>.

Indications and buttons on the source control screen

AV-IN name

Operation buttons

[MODE] Changes the AV-IN name.
   • Press [◄] or [▶] to select an AV-IN name.
   • This setting does not affect the source name “AV-IN 1”/“AV-IN 2” displayed on the <TOP MENU>.

[MENU] Displays the <TOP MENU> screen.
OTHER EXTERNAL COMPONENTS

Displaying the picture from the rear view camera
The rear view screen is displayed when you shift the gear to the reverse (R) position.

• To erase the caution message, touch the screen.

To display the picture from the rear view camera manually

(Hold)

• This operation works only when <ATT Key Long Press> is set to [R-CAM]. (Page 60)
• You can change the picture settings using [Aspect]/[Picture Adjust]. (Page 53)

To exit the rear view screen: Press and hold the same button again.

Using the parking guidelines
You can display parking guidelines to enable easier parking when you shift the gear to the reverse (R) position.

Displaying the parking guidelines

1 Display the <Display> setting screen.
On the <TOP MENU> screen:

2 To deactivate: Select [OFF] for <Parking Guidelines>.

Press [▼] repeatedly to change the page on the <Display> menu screen.
OTHER EXTERNAL COMPONENTS

Adjusting the parking guidelines
Adjust the parking guidelines according to the size of the car, parking space and so on.
• Install the rear view camera in the appropriate position according to the instructions supplied with the rear view camera.
• When adjusting the parking guidelines, make sure to use the parking brake to prevent the car from moving.

1 Display the <Display> setting screen.
On the <TOP MENU> screen:
• Press [K] repeatedly to change the page on the <Display> menu screen.

2 Adjust the parking guidelines by selecting the mark (①), then adjusting the position of the selected mark (②).
Make sure that ① and ② are horizontally parallel, and that ③ and ④ are the same length.
• Press and hold [Initialize] for 2 seconds to set all the marks to the initial default position.

Using an external component via ADS adapter—OEM Features
You can control the sources from the component via ADS adapter.
• Preparation: Configure the settings on the <OEM Setup> screen beforehand. (Page 60)

1 Connect the ADS adapter to the iDatalink input terminal. (Page 64)

2 Select “OEM Features” as the source. (Page 9)
On the <TOP MENU> screen:
• Press [▼] to change the page on the <TOP MENU> screen.

3 Turn on the connected component and start playing the source.
BLUETOOTH

Information for using Bluetooth® devices

Bluetooth
Bluetooth is a short-range wireless radio communication technology for mobile devices such as mobile phones, portable PCs, and other devices. Bluetooth devices can be connected without cables and communicate with each other.

Notes
• While driving, do not perform complicated operations such as dialing numbers, using the phone book, etc. When you perform these operations, stop your car in a safe place.
• Some Bluetooth devices may not connect to this unit depending on the Bluetooth version of the device.
• This unit may not work for some Bluetooth devices.
• Connecting conditions may vary depending on your environment.
• For some Bluetooth devices, the device is disconnected when the unit is turned off.

About mobile phones compatible with Phone book Access Profile (PBAP)
If your mobile phone supports PBAP, you can display the phone book and call lists on the touch panel screen when the mobile phone is connected.
• Phone book: up to 600 entries
• Dialed calls, received calls, and missed calls: up to 10 entries each

Connecting Bluetooth devices

Registering a new Bluetooth device
When you connect a Bluetooth device to the unit for the first time, pair the unit and the device. Pairing allows Bluetooth devices to communicate with each other.
• The pairing method differs depending on the Bluetooth version of the device.
  – For devices with Bluetooth 2.1: You can pair the device and the unit using SSP (Secure Simple Pairing) which only requires confirmation.
  – For devices with Bluetooth 2.0: You need to enter a PIN code both on the device and unit for pairing.
• Once the connection is established, it is registered in the unit even if you reset the unit. Up to 5 devices can be registered in total.
  • Two devices for Bluetooth phone and one for Bluetooth audio can be connected at a time.
• To use the Bluetooth function, you need to turn on the Bluetooth function of the device.

Auto pairing
When <Auto Pairing> is set to [ON], IOS devices (such as iPhone) are automatically paired when connected via USB. (Page 49)

Pairing a Bluetooth device using SSP (for Bluetooth 2.1)
When the Bluetooth device is compatible with Bluetooth 2.1, a pairing request is sent from an available device.

1 Search the unit (“DDX****”) from your Bluetooth device.
2 Confirm the request both on the device and the unit.

• Press [Cancel] to reject the request.
BLUETOOTH

Pairing a Bluetooth device from the target device using a PIN code (for Bluetooth 2.0)

1 Display the <Bluetooth Setup> screen.
   On the <TOP MENU> screen:
   • Press [▼] repeatedly to change the page on the <System> menu screen.
   • You can also display the <Bluetooth Setup> screen by pressing [▼] on the phone control screen. (Page 46)

2 Change the PIN code.
   • If you wish to skip changing the PIN code, go to step 3.
   • The PIN code is initially set to “0000”.
   • The maximum number of digits in the PIN code is 15.
   • Press [Clear] to delete the last entry.

3 Search for the unit (“DDX****”) from your Bluetooth device.

4 Select the unit (“DDX****”) on your Bluetooth device.
   • If a PIN code is required, enter “0000” (initial).

When pairing is complete, the device is listed on the <Paired Device List>.
   • To use the paired device, connect the device on the <Paired Device List>. (Page 44)

Continued on the next page...
Pairing a Bluetooth device from this unit using a PIN code (for Bluetooth 2.0)

1. Display the <Bluetooth Setup> screen. (Page 43)
2. Search for the available devices.
3. Select the device you want to pair.

- To cancel searching devices, press [Cancel].
- If a PIN code is required, enter "0000" (initial).

Connecting/disconnecting a registered Bluetooth device

Two devices can be connected simultaneously.

1. Display the <Bluetooth Setup> screen. (Page 43)
2. Select the device you want to connect (①), then press [Connection] (②).

- Mobile phone
- Audio device

- The status is shown as follows:
  - "Connected": A connection has been established.
  - "Connect Ready": A connection can be established.
  - "Disconnected": No connection is established.
- Press [Change] for <APP Setup> to display the <APP Settings> screen to configure settings for applications of iPod/iPhone/Android. (Page 50)

- When a Bluetooth mobile phone is connected, the signal strength and battery level are displayed when the information is acquired from the device.

Deleting a registered Bluetooth device

1. Display the <Bluetooth Setup> screen. (Page 43)
2. Select a device to delete (①), then press [Remove] (②).
3. A confirmation message appears. Press [Yes].
BLUETOOTH

Using a Bluetooth mobile phone

❏ Receiving a call
When a call comes in...

- Call information is displayed if acquired.
- Phone operation is not available while the picture from the rear view camera is displayed. (Page 39)

To reject a call

When <Auto Response> is set to [ON] (Page 49)
The unit answers incoming calls automatically.

❏ Ending a call
While talking...

Adjusting the volume of calls/earpiece/microphone
While talking...

- You can adjust the volume level between 0 to 15 (initial: 3).
- Turn the volume knob on the monitor panel to adjust the call/earpiece volume. (Page 7)

Adjusting the echo cancel level/reducing noise
While talking...

- To adjust the echo volume (between −1 to +1, initial: 0): Adjust <EC LEVEL>.
- To adjust the noise reduction volume (between 0 to −20, initial: −10): Adjust <NR LEVEL>.

Switching between handsfree mode and phone mode
While talking...

Each time you press the button, the talking method is switched ((STD) : handsfree mode / ( : phone mode).
BLUETOOTH

Sending text during a call
You can send text during a call using the DTMF (Dual Tone Multi Frequency) function.
While talking...

Making a call
1 Display the phone control screen.
   On the <TOP MENU> screen:
   • Press [▼] to change the page on the <TOP MENU> screen.

Switching between two connected devices
When 2 devices are connected, you can change the device to use.
On the phone control screen:

• The name of the active device appears. The devices are switched each time the button is pressed.

Making a call
1 Display the phone control screen.
   On the <TOP MENU> screen:
   • Press [▼] to change the page on the <TOP MENU> screen.

2 Select a method to make a call.
   • You can also display the phone control screen by pressing TEL on the monitor panel.

From the phone book/call lists

4 Voice dialing
**BLUETOOTH**

- To use the A to Z search in the phone book:
  When the phone book list is displayed, you can search by initial.

1. **Select the initial.**
   - If the initial character is a number, press [1,2,3...] and then select the number.

2. **Select a phone number from the list.**

3. **To display other phone numbers:**
   - The phone number switches each time [>] is pressed.

- To display other phone numbers:
  When the phone book list is displayed, you can switch between phone numbers if several phone numbers are registered for the same person.

1. **Switch the phone number.**

- **Voice dialing**
  - Available only when the connected mobile phone has a voice recognition system.

1. Activate voice dialing.
   - On the phone control screen:
     - Press [>] repeatedly to change the page on the phone control screen.
     - You can also activate voice dialing by holding TEL on the monitor panel.

2. **Say the name of the person you want to call.**
   - If the unit cannot find the target, the following screen appears. Press [Start], then say the name again.

To cancel voice dialing: Press [Cancel].

**Direct number entry**
You can enter up to 31 numbers.

- Press [ ] to delete the last entry.
- Press and hold [0/+] to add “+” to the phone number.

**Voice dialing**
- Available only when the connected mobile phone has a voice recognition system.

1. Activate voice dialing.
   - On the phone control screen:
     - Press [>] repeatedly to change the page on the phone control screen.

2. **Say the name of the person you want to call.**
   - If the unit cannot find the target, the following screen appears. Press [Start], then say the name again.
**BLUETOOTH**

**Presetting phone numbers**

You can preset up to 5 phone numbers.

1. Display the phone control screen. (Page 46)
2. Enter the numbers on the direct number entry screen, then display the preset list.
3. Select a preset number to store into.

- To display the preset list, press [ ] on the phone control screen.

**Using the Bluetooth audio player**

- To register a new device, see page 42.
- To connect/disconnect a device, see page 44.

**Indications and buttons on the source control screen**

- The operation buttons, indications and information displayed on the screen differ depending on the connected device.

**Playback information**

1. Playback status*
2. Playing time*
3. Tag data (current track title/artist name/album title)*
   - Pressing [<] scrolls the text if not all of the text is shown.
4. The signal strength and battery level (only when the information is acquired from the device)

| **<Initialize>** | Hold [Enter] to reset all settings you have made for using Bluetooth mobile phones and Bluetooth audio players. |
**SETTINGS**

**Settings for using applications of iPod/iPhone/Android**

Before using applications of iPod/iPhone/Android such as Pandora, iHeartRADIO, or AUPEO! select the device to use and connection method.

When connecting the device for first time, the setup screen (for connection, etc.) appears. Follow the procedure on the setup screen to configure the settings.

1. Connect the device.
   - **For Android**: Pair the Android device through Bluetooth. (Page 42)
   - **For iPod touch/iPhone**: Connect iPod touch/iPhone. (Page 17)

2. Display the <APP Setup> screen. On the <TOP MENU> screen:

3. Display the <APP Settings> screen.

4. If you do not need to change the setting, press [OK] to exit from the setup screen.

5. Select the device type (1), then press [Next] (2).

6. When selecting [Android/Other], the confirmation message is displayed. Press [Next], then go to step 7.

7. **When selecting [Android/Other] as the device type in step 5 or [Bluetooth] as the connection method of iPod/iPhone in step 6, the device selection screen appears.** Search for the available iPod/iPhone/Android devices (1), select the target device from the list (2), then press [Next].

8. Confirm the settings.

   - You can change the page to display more items by pressing [▲]/[▼].
   - If the device is already listed, skip step 1.
   - To stop searching, press [Cancel].

* When <CarPlay Connection> is set to [ON] (Page 20), these settings cannot be selected.

---

**<Bluetooth>** Select this when the iPod/iPhone is connected via Bluetooth.

- When selecting <USB + AV-IN> or <USB 1 Wire>, go to step 8.

**<USB + AV-IN>** Select this when the iPod/iPhone is connected using KCA-iP202 (optional accessory). When selecting <USB + AV-IN> or <USB 1 Wire>, go to step 8.

**<USB 1 Wire>** Select this when the iPod/iPhone is connected using KCA-iP102 (optional accessory) or KCA-iP103 (optional accessory).
SETTINGS

Sound adjustment

Using the sound equalization
- The adjustment is memorized for each source until you adjust the sound again. If the source is a disc, the adjustment is stored for each of the following categories.
  - DVD/DVD-VR/VCD
  - CD
  - MPEG1/MPEG2/MP3/WMA/AAC
- You cannot adjust the sound when the unit is in standby.

Selecting a preset sound mode
1. Display the <Equalizer> screen.
   - On the <TOP MENU> screen:
2. Select a sound mode.
   - You can change the page to display more items by pressing [▲]/[▼].

Storing your own adjustment—Adjusting the sound precisely
1. Select a sound mode. (See the left column.)
2. Select a band and adjust the level of the selected band.
   - The number of bands depends on the model.
   - You can adjust the level by dragging the slider or using [▲]/[▼].
   - Repeat this step to adjust the level of other bands.
3. Activate ([ON]) or deactivate ([OFF]) the bass (<Bass EXT>) (①), and then adjust the subwoofer level (②).

Setting the car type and speakers
1. Display the <Car Setting> screen.
   - On the <TOP MENU> screen:
   - Press [▼] repeatedly to change the page on the <Audio> menu screen.
2. Select a car type (①), and then select the location of the speakers (②).
**SETTINGS**

- **Setting the speakers—speaker size and crossover frequency**

1. Display the <Speaker Select> screen. On the <TOP MENU> screen:
   - Press [▼] repeatedly to change the page on the <Audio> menu screen.

2. Select the speaker type (front speakers, rear speakers, or subwoofer).

3. Select the size of the selected speaker.

4. Adjust the crossover frequency of the selected speaker.

- **Gain** Adjusts the output volume of the selected speaker.
- **HPF FREQ** Adjusts the crossover frequency for the front or rear speakers (high pass filter).\(^1\)
- **LPF FREQ** Adjusts the crossover frequency for the subwoofer (low pass filter).\(^2\)
- **Slope** Adjusts the crossover slope.
- **Phase** Selects the phase for the subwoofer.\(^2\)

\(^1\) Appears only when the front or rear speakers are selected.
\(^2\) Appears only when the subwoofer is selected.

- **Setting the listening position**

You can adjust the sound effects according to your listening position.

1. Display the <Position> screen. On the <TOP MENU> screen:
   - Press [▼] repeatedly to change the page on the <Audio> menu screen.

2. Select the listening position ([All], [Front L], [Front R] or [Front All]).
SETTINGS

Adjusting the Digital Time Alignment (DTA)
Make fine adjustments to the delay time of the speaker output to create a more suitable environment for your vehicle.

1. Display the <Position> screen. (Page 52)
2. Display the <Position DTA> screen.
3. Select the speaker you want to adjust, and then adjust each item.

• <Distance> Adjusts the Digital Time Alignment (DTA) value.
• <Gain> Adjusts the output volume of the selected speaker.

Determining the value for <Position DTA> adjustment
If you specify the distance from the center of the currently set listening position to every speaker, the delay time will be automatically computed and set.

1. Determine the center of the currently set listening position as the reference point.
2. Measure the distances from the reference point to the speakers.
3. Calculate the differences between the distance of the furthest speaker and other speakers.
4. Set the DTA value calculated in step 3 for individual speakers.
5. Adjust gain for individual speakers.

Example: When [Front All] is selected as the listening position:
- [Distance]: 1.4 ft, 2.45 ft, 4.9 ft, +0 ft
- [Gain]: +3.5 ft, +2.45 ft, -2.45 ft, -1.4 ft

Adjustment for video playback

Adjusting the picture
You can adjust the picture quality.

1. Display the adjustment menu.
2. Select [DIM ON] (dimmer on) or [DIM OFF] (dimmer off).

Continued on the next page...
**SETTINGS**

3 Adjust the picture.

- **<Bright>** Adjusts the brightness. (−15 to +15)
- **<Contrast>** Adjusts the contrast. (−10 to +10)
- **<Black>** Adjusts the blackness. (−10 to +10)
- **<Color>** Adjusts the color. (−10 to +10)
- **<Tint>** Adjusts the tint. (−10 to +10)
- **<Sharpness>** Adjusts the sharpness. (−2 to +2)

**Changing the aspect ratio**

You can change the aspect ratio for video playback.

1 Display the adjustment menu.

2 Select the aspect ratio.

- **<Full>** For 16:9 original pictures
  - 4:3 signal
  - 16:9 signal
- **<Normal>** For 4:3 original pictures
  - 4:3 signal
  - 16:9 signal
- **<Zoom>** Changes the magnification.
  - The aspect ratio is automatically selected to match the video source.

**Zooming the picture**

You can zoom the picture. Zooming is available only when discs are played back.

1 Display the adjustment menu.

2 Change the magnification (1), then move the zooming frame (2).

- The zoom function cannot be used for some video sources.
SETTINGS

Changing the display design
You can change the background and panel color.

1 Display the <User Customize> screen.

On the <TOP MENU> screen:

2 Select an item to change (background design: [Background]/panel color: [Panel Color]).

3 Select a background/panel color.

To select a background

• The number of preset backgrounds and the designs available differ depending on the model.

To select a panel color

• Selecting [Scan] changes the illumination color gradually.

*1 Store your own scene beforehand. (See the right column.)
*2 Store your own color adjustment beforehand. (See below.)

Making your own color adjustment

1 Select [Panel Color] on the <User Customize> screen. (See the left column.)

2 Select the dimmer setting for the color (①), then adjust the color (②).

Storing your favorite image for the background

You can set your favorite image stored on the connected USB device.

1 Connect the USB device on which the image is stored. (Page 64)

2 Display the <User Customize> screen. (See the far left column.)

3 Display the file selection screen.

4 Select the folder (①), then the file for the background image in the selected folder (②).

• You can change the page to display more items by pressing [▲]/[▼].

A confirmation message appears. Press [OK] to store the new image. (The existing image is replaced with the new one.)
Customizing the <TOP MENU> screen
You can arrange the items to display on the <TOP MENU> screen.

1. Display the <Menu Customize> screen.
   - On the <TOP MENU> screen:
     - Press [▼] repeatedly to change the page on the <Display> menu screen.

2. Select the position to place the icon (1), then select the item you want to display in the selected position (2).

Repeat this step to place icons for other items.

Customizing the system settings

Memorizing/recalling the settings
- You can memorize the settings changed in the <Setup> menu and recall the memorized settings any time.
- The memorized settings are kept even when the unit is reset.

1. Display the <SETUP Memory> screen.
   - On the <TOP MENU> screen:
     - Press [▼] repeatedly to change the page on the <System> menu screen.

2. To cancel, press [No].

3. Select an operation.
   - [Recall] Recalls the memorized settings.
   - [Memory] Memorizes the current settings.
   - [Clear] Clears the currently memorized settings.
   - To cancel, press [Cancel].

A confirmation message appears. Press [Yes].
**SETTINGS**

- **Locking the settings**
  You can lock the settings to prevent them from being changed.
  - • is shown beside the settings that can be locked.

1. Display the <SETUP Memory> screen. (Page 56)
2. 

To unlock the setting: Press [Unlock].

- **Updating the system**
  You can update the system by connecting a USB device containing an update file.
  - To update the system, visit <http://www2.jvckenwood.com/cs/ce/>.

1. Create an update file, copy it to a USB device, and connect it to the unit.
   - To connect a USB device, see page 64.
2. Display the <System Information> screen.
   On the <TOP MENU> screen:
   - Press [▼] repeatedly to change the page on the <System> menu screen.

- **Adjusting the touch position**
  You can adjust the touch position on the touch panel if the position touched and the operation performed do not match.

1. Display the <Touch Panel Adjust> screen.
   On the <TOP MENU> screen:
   - Press [▼] repeatedly to change the page on the <System> menu screen.
2. Touch the center of the marks at the lower left and at the upper right as instructed.
   - To reset the touch position, press [Reset].
   - To cancel the current operation, press [Cancel].

---

ENGLISH | 57
SETTINGs

Setting menu items

Displaying the <Setup> menu screen

You can change the page to display more items by pressing [△]/[▼].
You cannot change the <Audio> menu items when [STANDBY] is selected on the <TOP MENU>. (Page 7)

<Audio> setting screen

<Fader/Balance>

Fader: Adjust the front and rear speaker output balance.
- F6 to R6 (Initial: 0)
  - When using a two-speaker system, set the fader to the center (0).

Balance: Adjust the left and right speaker output balance.
- L6 to R6 (Initial: 0)
  Press [△]/[▼]/[◄]/[►] or drag [X] to adjust.
  - To clear the adjustment, press [Center].

<Equalizer>
Change the sound mode or adjust and store the equalization for each source. (Page 51)
- Natural (Initial)/Rock/Pops/Easy/Top40/Jazz/Powerful/iPod1/User

<Loudness>
You can activate/deactivate loudness.
- ON (Initial): Boost low and high frequencies to produce a well-balanced sound at a low volume level.
- OFF: Cancels.

<Volume Offset>
Adjust and store the auto-adjustment volume level for each source. (For discs, the adjustment is stored for each of the following categories: DVD/DVD-VR/VCD, CD, and MPEG1/MPEG2/MP3/WMA/AA.) The volume level will automatically increase or decrease when you change the source.
- -15 to +6 (Initial: 0)

<SW Level>
Adjust the subwoofer level.
- -50 to +10 (Initial: 0)

<Bass Boost>
Select your preferred bass boost level.
- OFF (Initial)/Level 1/Level 2/Level 3

<Car Setting>2
Select a car type and speaker location. (Page 51)
- Car type: Off (Initial)/Compact/Full Size Car/Wagon/Minivan/SUV/Minivan (Long)
- Speaker Location: Select the location of the speakers in your car.
  - Front: Door (Initial)/On Dash/Under Dash
  - Rear3: Door/ Rear Deck/2nd Row/3rd Row

<Speaker Select>2
Select the speaker size and adjust the crossover frequency. (Page 52)

<Position>
Adjust the sound effects according to your listening position. (Page 52)

<DSP Select>
Select whether to use the Digital Signal Processor (DSP) system.
- Bypass: Invalidates all the settings for the DSP.
- Through (Initial): Uses the DSP.

<Drive Equalizer>
You can reduce the driving noise by raising the bandwidth.
- ON (Initial): Activates the Drive Equalizer.
- OFF: Cancels.

1 Appears only when iPod is selected as the source.
2 When an item is grayed out, you cannot change the setting. Select [Unlock] on the <SETUP Memory> screen to change the setting. (Page 57)
3 The initial setting varies depending on the car type setting.
**SETTINGS**

**<Display> setting screen**

**<Dimmer>**
- **Auto** (Initial): Dims the screen and button illumination when you turn on the headlights.
  - The ILLUMI lead connection is required.
  (Page 63)
- **ON**: Activates dimmer.
- **OFF**: Cancels.

**<User Customize>**
Change the display design (background and panel color). (Page 55)

**<OSD Clock>**
- **ON**: Displays the clock while a video source is playing.
- **OFF** (Initial): Cancels.

**<Demonstration>**
- **ON** (Initial): Activates the demonstration on the screen.
- **OFF**: Cancels.

**<Scroll>**
- **ON** (Initial): Scrolls the displayed information repeatedly.
- **Once**: Scrolls the displayed information once.
- **OFF**: Cancels.
Pressing [<] scrolls the text regardless of this setting.

**<Menu Customize>**
Change the items to display on the <TOP MENU> screen. (Page 56)

**<Screen Adjustment>**
Adjust the brightness and blackness of the screen.
Press [Enter] to display the setting screen, select [DIM ON] (dimmer on)/[DIM OFF] (dimmer off), then change the following settings:
- **Bright**: Adjusts brightness.
  - –15 to +15 (Initial: 0 for dimmer on/+15 for dimmer off)
- **Black**: Adjusts blackness.
  - –10 to +10 (Initial: 0)

**<Parking Guidelines>**
- **ON** (Initial): Displays the parking guidelines.
  (Page 40)
- **OFF**: Cancels.

**<Guidelines Setup>**
Adjusts the parking guidelines. (Page 41)

**<Parking Assist Disp.>**
When an ADS adapter is connected, you can display information about obstacles around the car.
- **ON**: Always displays information.
- **Dyn.** (Initial): Displays information when the sensor detects obstacles.
- **OFF**: Cancels.

**<Parking Assist Pos.>**
Select where information about obstacles is displayed on the screen (left or right).
- **Left/Right** (Initial)

**<Input> setting screen**

**<R-CAM Interrupt>**
- **ON**: Displays the picture from the rear view camera when you shift the gear to the reverse (R) position.
- **OFF** (Initial): Select this when no camera is connected.
<System> setting screen

<Language>
Select the text language used for on-screen information.
- English (Initial)/Español/ Français/ Deutsch/ Italiano/Nederlands/ Ελληνικά/ Português/ Türkçe/ Čeština/ Polski/ Magyar/ Русский/ Ιταλικοί/ 한국어/简体中文/繁體中文/ Bahasa Indonesia
- GUI Language: Select the language used for displaying operation buttons and menu items.
  - English (Initial)/Local (the language selected above)

<Clock>
Adjust the clock time. (Page 5)

<iPod Setup>
Configure the settings of iPod. (Page 17)

<APP Setup>
- APP Connection Setup: Configure the Apps settings. (Page 50)
  - 0 to 35 (Initial: 17)

<CarPlay Connection>
Select the usage of the iPhone compatible with CarPlay. (Page 20)
- ON (Initial): Allows “Apple CarPlay”* to be selected on the <TOP MENU> screen.
- OFF: Allows “APPS” to be selected on the <TOP MENU> screen.

<Bluetooth Setup>
Configure settings for using a Bluetooth device, such as connection and other general operations. (Page 49)

<Beep>
- ON (Initial): Activates the key-touch tone.
- OFF: Cancels.

<SETUP Memory>
You can memorize, recall, or clear the settings you have made. (Page 56)

<OEM Setup>
Shows information about/changes the settings for using the ADS adapter.

<ATT Key Long Press>
Assigns the function of the volume knob when held.
- AUDIO: Displays the <Equalizer> screen. (Page 51)
- R-CAM: Displays the picture from the rear view camera. (Page 40)
- V-OFF: Turns off the screen. (Page 7)

<AV-OUT>
You can determine the use of the external component connected to the AV-OUT terminal.
- OFF (Initial)/AV-IN1/AV-IN2/DVD

<AV Key Long Press>
Assigns the function of the AV button when held.
- AV-OUT (Initial): Selects the AV source for extra monitors or amplifiers.
- APPS: Displays the Apps screen. (Page 22)

<SI>
Activate or deactivate the security function. (Page 4)

<Serial Number>
Displays the serial number.

<Touch Panel Adjust>
Adjust the touch position of the buttons on the screen. (Page 57)

<System Information>
Displays the version information of the software. You can update the software. (Page 57)

<Open Source Licenses>
Shows the Open Source Licenses.

* “Apple CarPlay” is displayed as the source on the <TOP MENU> screen when iPhone compatible with CarPlay is connected.
CONNECTION/INSTALLATION

Before installing the unit

⚠️ WARNING
• If you connect the ignition wire (red) and the battery wire (yellow) to the car chassis (ground), you may cause a short circuit, that in turn may start a fire. Always connect those wires to the power source running through the fuse box.
• Do not cut out the fuse from the ignition wire (red) and the battery wire (yellow). The power supply must be connected to the wires via the fuse.

⚠️ Precautions on installation and connection
• Mounting and wiring this product requires skills and experience. For best safety, leave the mounting and wiring work to professionals.
• Make sure to ground the unit to a negative 12 V DC power supply.
• Do not install the unit in a spot exposed to direct sunlight or excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.
• Do not use your own screws. Use only the screws provided. If you use the wrong screws, you could damage the unit.
• If the power is not turned on ("Miswiring DC Offset Error", "Warning DC Offset Error" is displayed), the speaker wire may have a short circuit or have touched the chassis of the vehicle and the protection function may have been activated. Therefore, the speaker wire should be checked.

• If your car’s ignition does not have an ACC position, connect the ignition wires to a power source that can be turned on and off with the ignition key. If you connect the ignition wire to a power source with a constant voltage supply, such as with battery wires, the battery may be drained.
• If the fuse blows, first make sure the wires are not touching to cause a short circuit, then replace the old fuse with one with the same rating.
• Insulate unconnected wires with vinyl tape or other similar material. To prevent a short circuit, do not remove the caps on the ends of the unconnected wires or the terminals.
• Connect the speaker wires correctly to the terminals to which they correspond. The unit may be damaged or fail to work if you share the wires or ground them to any metal part in the car.
• When only two speakers are being connected to the system, connect both connectors either to the front output terminals or to the rear output terminals (do not mix front and rear). For example, if you connect the connector of the left speaker to a front output terminal, do not connect the connector to a rear output terminal.
• After the unit is installed, check whether the brake lamps, blinkers, wipers, etc. on the car are working properly.
• Mount the unit so that the mounting angle is 30° or less.
• Do not press hard on the panel surface when installing the unit in the vehicle. Otherwise scratches, damage, or failure may result.
• This unit has a cooling fan to decrease the internal temperature. Do not mount the unit in a place where the cooling fan of the unit is blocked. Blocking these openings will prevent the cooling of the internal temperature and result in malfunction.

Cooling fan

⚠️ CAUTION
Install this unit in the console of your vehicle. Do not touch the metal part of this unit during and shortly after the use of the unit. Metal parts such as the heat sink and enclosure become hot.

Supplied accessories for installation
1. Wiring harness × 1
2. Trim plate × 1
3. Extension wire (2 m) × 1
4. Extraction keys × 2
5. Flat head screws (M5 x 7 mm) × 6
6. Round head screws (M5 x 6 mm) × 6
7. Microphone (3 m) × 1
8. GPS antenna (3.5 m) × 1
9. Metal plate × 1
**CONNECTION/INSTALLATION**

- **Installation procedure**
  1. To prevent a short circuit, remove the key from the ignition and disconnect the battery.
  2. Make the proper input and output wire connections for each unit.
  3. Connect the speaker wires of the wiring harness.
  4. Connect the wiring harness wires in the following order: ground, battery, ignition.
  5. Connect the wiring harness connector to the unit.
  6. Install the unit in your car.
    - Make sure that the unit is installed securely in place. If the unit is unstable, it may malfunction (e.g., the sound may skip).
  7. Reconnect the battery.
  8. Press the reset button.
  9. Configure `<Initial Setup>`. (Page 4)

- **Installing the unit**
  1. Attach the trim plate (2).

- **Installing the trim plate**
  1. Select the appropriate type of screw for the mounting bracket: flat head (5) or round head (6).

- **When installing the unit using the mounting bracket removed from the car**
  - Bend the tabs of the mounting sleeve with a screwdriver or similar utensil and attach it in place.
**CONNECTION/INSTALLATION**

### Connection

#### Connecting wires to terminals

- **USB input terminal (1.0 m):** Page 64
- **GPS antenna terminal:** Page 65

Connect the antenna cord to the antenna terminal.

- **White** / White with black stripe: To front speaker (left)
- **Gray** / Gray with black stripe: To front speaker (right)
- **Green** / Green with black stripe: To rear speaker (left)
- **Purple** / Purple with black stripe: To rear speaker (right)

- **Blue** (Antenna control wire)
- **Blue with white stripe** (Power control wire)
- **Brown** (Mute control wire)
- **Light blue with yellow stripe** (Steering remote control wire)
- **Orange with white stripe** (Dimmer control wire)
- **Red** (Ignition wire)
- **Yellow** (Battery wire)
- **Black** (Ground wire)

**CONNECTION/INSTALLATION**

**Connecting wires to terminals**

- **Connect SiriusXM Connect Vehicle Tuner** (commercially available). See page 64.

- **Purple with white stripe** (Reverse sensor wire): Connect to the vehicle’s reverse lamp harness when using the optional rear view camera.

- **Light green** (Parking sensor wire): Connect to the vehicle’s parking brake detection switch harness. For best safety, be sure to connect the parking sensor.

- **10 A fuse**

- **Connect to the vehicle’s reverse lamp harness when using the optional rear view camera.**

**Not used.**

To use the steering wheel remote control feature, an exclusive remote adapter (not supplied) matching your car is required.

**To car light control switch**

- **Ignition key switch**
- **Fuse box**
- **To car chassis**
- **Battery**

Depending on what antenna you are using, connect either to the control terminal of the motor antenna, or to the power terminal for the booster amplifier of the film-type antenna. (Max. 300 mA, 12 V)

When using the optional power amplifier, connect to its power control terminal.

- **Antenna control wire**
- **Power control wire**

* If no connections are made, do not let the cable come out from the tab.
## CONNECTION/INSTALLATION

### Connecting an iPod/iPhone

**iPod/iPhone (Lightning connector models)**
- (commercially available)
  - Use KCA-iP102 (optional accessory)
  - 0.8 m

**iPod/iPhone (30-pin connector models)**
- (commercially available)
  - Use KCA-iP103 (optional accessory)
  - 0.8 m

**Connecting a USB device**
- USB device*
  - (commercially available)
  - 1.0 m
  - *Use CA-U1EX to extend the cable if necessary. (Max 500 mA, 5V)

**Connecting external components**

1. AV-OUT/Video output (Yellow)
2. Rear view camera input (Yellow)
3. Audio Video input (AV-IN1)*
4. iPod/Audio Video input (iPod/AV-IN2)*
5. iDataLink input for connecting ADS adapter (commercially available)
6. Subwoofer preout (monaural output)*
   - Subwoofer left output (White)
   - Subwoofer right output (Red)
7. *Rear preout*
   - Audio left output (White)
   - Audio right output (Red)
8. *Front preout*
   - Audio left output (White)
   - Audio right output (Red)
9. Audio output (ø3.5 mini jack)
   - Resistance-free stereo type mini plug
10. Expansion port for connecting SiriusXM Connect Vehicle Tuner (commercially available)

*1 When connecting the component to play on "AV-IN1" or "AV-IN2", use the Audio and Video cable CA-C3AV (optional accessory).

*2 When connecting an external amplifier, connect its ground wire to the chassis of the car; otherwise the unit may be damaged.
**CONNECTION/INSTALLATION**

<i>Connecting microphone for Bluetooth</i>

Connect the microphone (7) to the MIC terminal.

- To install the microphone, peel off the adhesive tape, fix it on the installation position, then adjust the direction of the microphone to face the driver. After installing, fix the microphone cable to the car with clamps (commercially available).

<i>Connecting the GPS antenna</i>

Connect the GPS antenna (8) to the GPS terminal.

- To install the GPS antenna, fix the metal plate (9) firmly on the dashboard, then place the GPS antenna (8) on the metal plate (9).
  - Clean the dashboard or other surface beforehand.
  - Install the GPS antenna (8) inside of the car, as horizontally as possible to allow easy reception of the GPS satellite signals.
  - You can bend the metal plate (9) to conform to a curved surface, if necessary.

- Depending on the type of car, reception of the GPS satellite signals might not be possible with an internal installation.
- Install this GPS antenna in an area away from any antennas that are used with CB radios or satellite televisions.
- The GPS antenna should be installed at a position that at least 30 cm (12 inches) from mobile phone or other transmitting antennas.
- The above types of communication may interfere with signals from the GPS satellite.
- Painting the GPS antenna with (metallic) paint may cause reduced performance.
CONNECTION/INSTALLATION

Removing the unit

- Removing the trim plate

1. Engage the catch pins on the extraction key (④) and remove the two locks on the lower part. Lower the frame and pull it forward.

2. Remove from the upper two catches.

- Be careful to avoid injury from the catch pins on the extraction key.

- The frame can be removed from the top side in the same manner.

• Removing the unit

1. Remove the trim plate. (See the left column.)

2. Insert the two extraction keys (④), then pull them as illustrated so that the unit can be removed.
REFERENCES

Maintenance

Caution on cleaning the unit
Do not use any solvent (for example, thinner, benzine, etc.), detergent, or insecticide. This may damage the monitor or the unit.

Recommended cleaning method:
Gently wipe the panel with a soft, dry cloth.

Moisture condensation
Moisture may condense on the lens inside the unit in the following cases:
• After starting the heater in the car.
• If it becomes very humid inside the car.
Should this occur, the unit may malfunction. In this case, eject the disc and leave the unit turned on for a few hours until the moisture evaporates.

How to handle discs
• When removing a disc from its case, press down the center holder of the case and lift the disc out, holding it by the edges.
– Always hold the disc by the edges. Do not touch its recording surface.
• When storing a disc in its case, gently insert the disc around the center holder (with the printed surface facing up).
– Make sure to store discs in their cases after use.

To keep discs clean
Dirty discs may not play correctly. If a disc does become dirty, wipe it with a soft cloth in a straight line from the center to the edge.

• Do not use any solvents (for example, conventional record cleaner, spray, thinner, benzine, etc.) to clean discs.

To play new discs
New discs may have some rough spots around the inner and outer edges. If such a disc is used, this unit may reject the disc.

• To remove these rough spots, rub the edges with a pencil or ball-point pen, etc.

More information

File playback
Playing MPEG1/MPEG2 files
• This unit can play back MPEG1/MPEG2 files with the extension code <.mpg> or <.mpeg>.
• The stream format should conform to MPEG system/program stream.
The file format should be MP@ML (Main Profile at Main Level)/SP@ML (Simple Profile at Main Level)/ MP@LL (Main Profile at Low Level).
• Audio streams should conform to MPEG Audio Layer-2.

Playing JPEG/BMP/PNG files (for USB only)
• This unit can play back picture files with the extension code <.jpg>, <.jpeg>, <.bmp> or <.png>.
• This unit can play back files that are at 32 x 32 to 2,000 x 2,000 resolution.
It may take time to display the file depending on its resolution.
• Interlaced PNG files cannot be played.
• This unit can play back baseline JPEG files.
Progressive JPEG files or lossless JPEG files cannot be played.

• This unit can play back files with the extension code <.mp3>, <.wma>, <.wav>, <.m4a> or <.flac> (regardless of the letter case—upper/lower).
• This unit can play back files that meet the conditions below:
  – Bit rate:
    MP3: 8 kbps – 320 kbps
    WMA: 48 kbps – 192 kbps
    AAC: For discs: 16 kbps – 320 kbps
      For USB: 32 kbps – 320 kbps
  – Sampling frequency:
    MP3: 8 kHz – 48 kHz
    WMA: For discs: 32 kHz – 48 kHz
      For USB: 8 kHz – 48 kHz
    WAV: 8 kHz – 48 kHz
    AAC: 16 kHz – 48 kHz
    FLAC: 8 kHz – 48 kHz
• This unit can show ID3 Tag Version 1.0/1.1/2.2/2.3/2.4 (for MP3).
• This unit can also show WMA/AAC/FLAC Tag.

Continued on the next page...
REFERENCES

- This unit can play back files recorded in VBR (variable bit rate).
- Files recorded in VBR have a discrepancy in elapsed time indication.
- This unit cannot play back the following files:
  - MP3 files encoded with MP3i and MP3 PRO format.
  - MP3 files encoded with Layer 1/2.
  - WMA files encoded with lossless, professional, and voice format.
  - WMA files which are not based upon Windows Media® Audio.
  - WMA/AAC files copy-protected with DRM.
  - AAC files encoded using any other application than iTunes.
  - AAC files copy-protected with FairPlay (except those stored on an iPod).
  - Files which have data such as AIFF, ATRAC3, etc.
- This unit can display jacket pictures that meet the conditions below:
  - Picture size: 32 x 32 to 1 232 x 672 (PNG: 800 x 480) resolution
  - Data size: less than 650 KB.
  - File type: JPEG/PNG/BMP

Playing H.264/WMV files (for USB only)

- This unit can play back files with the extension code <.mp4>, <.flv>, <.avi>, <.mkv> or <.wmv>.
- This unit can only play back files that are 1 280 x 720 pixels@30 fps or less.
- The stream format should conform to MPEG system/program stream.
- For some files, the picture is not fully displayed (black bars appear on the top and bottom or right and left sides depending on the horizontal to vertical ratio).

CD Recordable/Rewritable (CD-R/-RW)

- ISO 9660 level 1, level 2, Romeo, Joliet

Unplayable discs

- Unplayable disc types and formats are as follows:
  - DVD-Audio/DVD-ROM discs
  - MPEG4/DivX/JPEG/FLAC/MKV/DVD+VR/DVD-RAM recorded on DVD-R/RW or +R/+RW
  - SVCD (Super Video CD), CD-ROM, CD-I (CD-I Ready), DTS-CD
  - MPEG4/JPEG/FLAC/MKV recorded on CD-R/RW
  - Discs that are not round.
  - Discs with coloring on the recording surface or discs that are dirty.
  - Recordable/Rewritable discs that have not been finalized.
  - 3 inch discs. Attempting to insert these discs using an adapter may cause a malfunction.

DualDisc playback

The Non-DVD side of a “DualDisc” does not comply with the “Compact Disc Digital Audio” standard. Therefore, the use of the Non-DVD side of a DualDisc on this product cannot be recommended.

Playing Recordable/Rewritable discs

- This unit can recognize a total of 64 770 files and 254 folders (a maximum of 255 files per folder).
- Use only “finalized” discs.
- This unit can play back multi-session discs; however, unclosed sessions will be skipped while playing.
- Some discs or files may not be played back due to their characteristics or recording conditions.
REFERENCES

About data stored in the connected USB device/iPod/iPhone/Android device
• We bear no responsibility for any loss of data in iPod/iPhone, USB mass storage class devices, and Android devices while using this unit.

USB playback
Playable files on a USB device
• This unit can play the following types of files stored in a USB mass storage class device.
• This unit can recognize a total of 5,000 files and 250 folders (a maximum of 999 files per folder).
• Make sure all important data has been backed up to avoid losing the data.

Notes on using a USB device:
• This unit cannot play back files whose file name or folder name contains “#” or “%”.
• This unit may not play back files in a USB device properly when using a USB extension cable.
• USB devices equipped with special functions such as data security functions cannot be used with the unit.
• Do not use a USB device with 2 or more partitions.
• Depending on the shape of the USB devices and connection ports, some USB devices may not be attached properly or the connection might be loose.
• This unit may not recognize a memory card inserted into the USB card reader.
• When connecting with a USB cable, use the USB 2.0 cable.

• The maximum number of characters (when the characters are 1 byte):
  – Folder names: 128 characters
  – File names: 128 characters
• Avoid using the USB device if it might affect driving safety.
• Do not pull out and connect the USB device repeatedly while “Reading” is shown on the screen.
• Electrostatic shock at connecting a USB device may cause abnormal playback of the device. In this case, disconnect the USB device then reset this unit and the USB device.
• Operation and power supply may not work as intended for some USB devices.
• Do not leave a USB device in the car, or expose to direct sunlight or high temperatures to prevent deformation or damage to the device.

Notes on playing iPod/iPhone
• iPod/iPhone that can be connected to this unit: Made for
  – iPod with video
  – iPod classic
  – iPod nano (7th Generation)
  – iPod nano (6th Generation)
  – iPod nano (5th Generation)
  – iPod nano (4th Generation)
  – iPod nano (3rd Generation)

  – iPhone 3G
  – iPhone

• When operating an iPod/iPhone, some operations may not be performed correctly or as intended. In this case, visit the following KENWOOD web site: <www.kenwood.com/cs/ce/ipod>
• For some iPod/iPhone models, the performance may be abnormal or unstable during operation. In this case, disconnect the iPod/iPhone device, then check its condition.
  If the performance is not improved or slow, reset your iPod/iPhone.
• When you turn on this unit, the iPod/iPhone is charged through the unit.
• The text information may not be displayed correctly.

Error message list

If an error occurs while using the unit, a message appears. Take appropriate action according to the following message/remedy/cause list.

"No Signal":
- Start playback on the external component connected to the AV-IN1 or iPod/AV-IN2 input terminal.
- Check the cords and connections.
- Signal input is too weak.

"Miswiring DC Offset Error"/"Warning DC Offset Error":
- A speaker cord has shorted or it has come into contact with the car chassis. Wire or insulate the speaker cord as appropriate, then reset the unit. (Pages 3 and 63)

"Parking off":
- No playback picture is shown when the parking brake is not engaged.

"Authorization Error":
- Check whether the connected iPod/iPhone is compatible with this unit. (Page 69)
REFERENCES

“USB Device Error”:
• The USB power voltage is abnormal.
• Turn off and turn on the unit.
• Connect another USB device.

“Please Wait...”:
• The unit is preparing to use the Bluetooth function. If the message does not disappear, turn off and turn on the unit, then connect the device again (or reset the unit).

“Disconnected”:
• The device is not connected.

“Check device”:
• The application is not active.

“Check App”:
• A connection to the application cannot be established.

“Please update Pandora App”:
• The Pandora application on your iPod touch/iPhone/Android/BlackBerry is not the latest version. Update the application.

“Please check device.”:
• The Pandora application on your iPod touch/iPhone/Android/BlackBerry is not started up.
• The Pandora application is not installed in the connected device.
• An error has occurred on the Pandora application.

“Login Error”:
• You have not been signed into Pandora.

“No skips remaining”:
• No more songs can be skipped.

“Failed to save your thumb rating”:
• Thumb-up/down is prohibited.

“No Station”:
• No station is available.

“No Active Station”:
• No station is being played.

“Station limit reached”:
• The Station List is full and no more stations can be registered.

“Failed to save your bookmark”:
• The unit has failed to save a bookmark. Try the operation again.

“Limited Connectivity”:
• The connection with the Pandora application cannot be established.

“Pandora not available”:
• You cannot use the Pandora application from the area where you are currently trying to access Pandora.

“Try again later”:
• The Pandora server is under maintenance.

“Station does not exist”:
• The selected station has been deleted by another device or has expired.

“Cannot create a Station”:
• You cannot create a station during the read-only mode or when network connection is not established.

“SXM No Signal”:
• Make sure the SiriusXM Satellite Radio antenna is mounted outside the vehicle. Move the vehicle to an area with a clear view of the sky.

“SXM Check Antenna”:
• Check the SiriusXM Satellite Radio antenna connection, and make sure the antenna is firmly attached to the tuner.
• Check whether the SiriusXM Satellite Radio antenna cable is bent or broken. If it is damaged, replace the whole antenna unit.

“SXM Check Tuner”:
• Make sure the SiriusXM Connect Vehicle Tuner is connected to the unit.

“SXM Chan Unavailable” (appears on the screen for about 2 seconds, then returns to the previous channel):
• The selected channel is no longer available. Select another channel or continue listening to the previous channel.

“SXM Ch Unsubscribed” (appears on the screen for about 2 seconds, then returns to the previous channel):
• The selected channel is not part of your current subscription plan.
  – In the U.S.A., visit www.siriusxm.com or call 1-866-635-2349 if you have questions about your subscription package or would like to subscribe to this channel.
  – In Canada, visit www.siriusxm.ca or call 1-877-438-9677.

Continued on the next page...
REFERENCES

“SXM Subscription Updated – Press Enter to Continue”:
• Your subscription has been updated. Press the appropriate button to continue.

“SXM Channel Locked”
• The selected channel has been locked by the parental controls. Enter the parental code when you are asked. (Page 37)

“SXM Incorrect Lock Code”
• The selected channel is a mature or parental lock channel, and locked by the parental code. Enter the correct parental code to unlock it.

Troubleshooting

What appears to be trouble is not always serious. Check the following points before calling a service center.
• For operations with the external components, refer also to the instructions supplied with the adapters used for the connections (as well as the instructions supplied with the external components).

❖ General
No sound comes out of the speakers.
• Adjust the volume to the optimum level.
• Check the cords and connections.

No picture appears on the external monitor.
• Connect the video cord correctly.
• Select the correct input on the external monitor.

Playback does not start.
• The format of files is not supported by the unit.

Tracks on the Recordable/Rewritable discs cannot be skipped.
• Insert a finalized disc.
• Finalize the discs with the component which you used for recording.

Tracks on the Recordable/Rewritable discs cannot be played back.
• Insert a finalized disc.
• Finalize the discs with the component which you used for recording.

Tracks on the Recordable/Rewritable discs are not played back as you have intended them to play.
• Playback order may differ from the one played back using other players.

❖ Discs
Recordable/Rewritable discs cannot be played back.
• Insert a finalized disc.
• Finalize the discs with the component which you used for recording.

While playing a track, sound is sometimes interrupted.
• The tracks are not properly copied into the USB device. Copy the tracks again, and try again.

Tracks are not played back as you have intended them to play.
• Playback order may differ from the one played back using other players.

❖ iPod/iPhone
No sound comes out of the speakers.
• Disconnect the iPod/iPhone, then connect it again.
• Select another source, then reselect “iPod”.

The iPod/iPhone does not turn on or does not work.
• Check the connecting cable and its connection.
• Update the firmware version.
• Charge the battery.
• Reset the iPod/iPhone.

Sound is distorted.
• Deactivate the equalizer either on this unit or the iPod/iPhone.

A lot of noise is generated.
• Deactivate the equalizer either on this unit or the iPod/iPhone.

No operations are available when playing back a track containing artwork.
• Operate the unit after the artwork has loaded.

The iPod/iPhone not compatible with CarPlay cannot be connected via Bluetooth.
• Select [ON] for <CarPlay Connection> on the <System> menu screen. (Page 20)
REFERENCES

Videos cannot be played.
• Connect with USB Audio and Video cable KCA-iP202 (optional accessory) to iPod/iPhone 30-pin connector model. Other cables cannot be used.

No sound of videos comes out.
• Connect with USB Audio and Video cable KCA-iP202 (optional accessory) to iPod/iPhone 30-pin connector model. Other cables cannot be used.

❏ Apple CarPlay/APPs
Desired source (“Apple CarPlay”/”APPs”) is not displayed on the <TOP MENU> screen.
• Check whether the connected device is compatible with CarPlay.
• When iPhone compatible with CarPlay is connected, check the <CarPlay Connection> setting. (Page 60)

❏ AV-IN1/AV-IN2
No picture appears on the screen.
• Turn on the video component if it is not on.
• Connect the video component correctly.

❏ HD Radio reception
AME automatic presetting does not work.
• Store stations manually. (Page 31)

Static noise while listening to the radio.
• Connect the antenna firmly.

Sound quality changes when receiving HD Radio stations.
• Fix the reception mode either to <Digital> or <Analog>. (Page 30)

No sound can be heard.
• The HD Radio reception mode is not appropriate.
• Select the appropriate mode from <Digital>, <Analog> or <Auto>.

❏ iHeartRADIO/Pandora/AUPEO!
The application does not work.
• The application on your iPod touch/iPhone/Android is not the latest version. Update the application.

❏ Bluetooth
Phone sound quality is poor.
• Reduce the distance between the unit and the Bluetooth mobile phone.
• Move the car to a place where you can get a better signal reception.

The sound is interrupted or skipped while using a Bluetooth audio player.
• Reduce the distance between the unit and the Bluetooth audio player.
• Disconnect the device connected for Bluetooth phone.
• Turn off, then turn on the unit.
(When the sound is not yet restored) connect the player again.

The connected audio player cannot be controlled.
• Check whether the connected audio player supports AVRCP (Audio Video Remote Control Profile).

The Bluetooth device does not detect the unit.
• Search from the Bluetooth device again.

The unit does not pair with the Bluetooth device.
• For devices compatible with Bluetooth 2.1:
  Register the device using a PIN code. (Page 43)
• For devices compatible with Bluetooth 2.0:
  Enter the same PIN code for both the unit and target device. If the PIN code of the device is not indicated in its instructions, try “0000” or “1234.”
• Turn off, then turn on the Bluetooth device.

Echo or noise occurs.
• Adjust the microphone unit position.
• Adjust the echo volume or noise reduction volume. (Page 45)

The unit does not respond when you try to copy the phone book to the unit.
• You may have tried to copy the same entries (as stored) to the unit.
